Conceptual Physical Science Explorations is the high school version of Conceptual Physical Science. This curriculum offers engaging analogies and imagery from real world situations. With it, the student builds a solid foundation of understanding that becomes a cornerstone of general education and serves as a solid platform for further study in science.

Conceptual Physical Science Explorations: Paul, Hewitt ...

Physical Science (Explorations) This pre-built course is useful for college level elementary education majors, as well as for younger students grades 7 – 9. This curriculum actually covers a bit more breadth than our more sophisticated college/high school physical science titles. The depth of coverage, however, is lighter and the questions at the back of each chapter within the textbook and the unit exams at Conceptual Academy are not as challenging.
