In *Conceptual Physics with MasteringPhysics*®, 11/e Paul Hewitt shows how a compelling text and the most advanced media can be integrated to empower professors as they bring physics to life for non-science majors, both in and out of class. For the Eleventh Edition, Hewitt helps students connect physics to their everyday experiences and the world around them, and provides additional help on solving mathematical problems. Hewitt's text is famous for engaging students with analogies and imagery from real-world situations that build a strong conceptual understanding of physical principles ranging from classical mechanics to modern physics. With this strong foundation, students are better equipped to understand the equations and formulas of physics, and are motivated to explore the thought-provoking exercises and fun projects in each chapter. The new edition features a fresh new design, content that is more focused on physics applications, updated pedagogical features, and access to MasteringPhysics. 0321776720 / 9780321776723 *Conceptual Physics with MasteringPhysics*® Package consists of: 0321784456 / 9780321784452 *MasteringPhysics*® with Pearson eText -- Valuepack Access Card -- for *Conceptual Physics* 0321787951 / 9780321787958 *Conceptual Physics*

Concepts before computation is what this Hewitt text is all about. The text brings physics, chemistry, earth science, and astronomy together in a manner that captivates students' interest. This is serious science in a very readable and student-friendly format. With an emphasis on qualitative analysis, students get a gut feel for the science they're studying. Students will learn to appreciate and differentiate among major scientific ideas rather than reduce them to algebraic problem solving. This sets the foundation for more serious study of the life sciences in subsequent courses.
