The New Penguin Dictionary of Music W W Norton & Company Incorporated

In an ever-shrinking world, the need for a global perspective in dealing with the modern world has become acute. This book attempts to provide such a perspective by investigating the major changes in geopolitics and world economy during the past 500 years. However compact, it enables us to understand the present unravelling of Communism and the growing challenge from

Asia to Western Superiority. It is shown that in so many ways the problems of the contemporary world spring from the unprecedented era of western domination, which the non-western world is now trying to unlive.

The Oxford History of Western Music: The early twentieth century W. W. Norton

Co-published by MENC: The National Association for Music Education. A History of American Music Education covers the history of American music education, from its roots in Biblical times through recent historical events and trends. It describes the educational, philosophical, and sociological aspects of the subject, always putting it in the context of the history of the United States. It offers complete information on professional organizations, materials, techniques, and personalities in music education.

A History of Western Music OUP USA

Expertly steering readers through the often tumultuous and exhilarating history of the United States, from its early modern Native American roots to twenty-first-century neoliberalism and the shifting political climate of the past decade, this highly readable textbook provides a compelling overview of American development over the last five centuries. This book avoids either celebratory or condemnatory rhetoric to present a critical examination of domestic America and its interaction with the rest of the world. Balancing coverage of political, social, cultural, and economic history, each chapter also includes a wealth of features to facilitate learning: Timelines situating key events in their wider chronology Lists of topics covered within each chapter for easy reference Concept boxes discussing selected issues in more detail Historiography boxes exploring key debates Chapter summaries offering condensed outlines of the main themes of each chapter Further reading lists guiding readers to additional resources Maps and images bringing to life important events and figures from America ' s history Clearly and engagingly written and positioning America ' s narrative within the wider global context, this textbook is particularly accessible for non-US students and is the perfect introduction for those new to US history. This textbook is also supported by a companion website offering interactive content including a timeline, multiple-choice quizzes, and links to selected web resources.

New resources include Audio Timelines, tutorials to help build music history skills, and adaptive activities to reinforce concepts.

A Concise History of Jazz Cambridge University Press

A Concise History of Western Civilization: From Prehistoric to Early Modern Times: Third Edition By: Gary Forsythe This volume is designed to serve as the textbook for an undergraduate college course that surveys the history of Western Civilization up to the Early Modern Period. It differs from most Western Civilization books in that it places more emphasis on the ancient world and less on the Middle Ages. It treats the ancient Near Eastern civilizations with a view to understanding the historical context of ancient Judaism and the Hebrew Bible, and it also stresses the political thought and institutions of the ancient Greeks and Romans, which have been so important in shaping the political institutions of many modern nations worldwide. The text is a straightforward textbook of basic historical information and represents the content of the author's class lectures in his course on Western Civilization.

A Concise History of the American Republic: Thames & Hudson

In examining one of the defining events of the twentieth century, Doris L. Bergen situates the Holocaust in its historical, political, social, cultural, and military contexts. Unlike many other treatments of the Holocaust, the revised, second edition of War

---

and Genocide discusses not only the persecution of the Jews, but also other segments of society victimized by the Nazis: gypsies, homosexuals, Poles, Soviet POWs, the handicapped, and other groups deemed undesirable. In clear and eloquent prose, Bergen explores the two interconnected goals that drove the Nazi German program of conquest and genocide—purification of the so-called Aryan race and expansion of its living space—and discusses how these goals affected the course of World War II. Including first hand accounts from perpetrators, victims, and eyewitnesses, the book is immediate, human, and eminently readable.

Concise History of Western Music W. W. Norton Incorporated  
Concise History of Western Music combines Grout and Palisca's uncompromising reliability, scope, and respect for the narrative, while offering many more pedagogical aids, such as chapter preludes and postludes; "Etudes," excursions that explore the material more deeply than the main text; and "Windows," boxed discussions of special topics.

Music in the Western World Oxford University Press

The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar. Catherine Schmidt-Hones is a music teacher from Champaign, Illinois and she has been a pioneer in open education since 2004. She is currently a doctoral candidate at the University of Illinois in the Open Online Education program with a

focus in Curriculum and Instruction.

A comprehensive history of occidental music focuses on the function of music as an expression of the spirit and artistic life of each age

Ideas and Styles in the Western Musical Tradition W. W. Norton

Ideas and Styles in the Western Musical Tradition, Fourth Edition, explores the conceptual frameworks that have shaped musical development from antiquity to the present. In a lively narrative that prompts readers to think both critically and creatively, Douglass Seaton uses historical documents from thinkers, artists, and musicians to add rich detail to the compelling story of Western music. This brief and accessible narrative of music history features numerous works of art, literature, and music that immerse students in the historical and intellectual contexts of musical styles. The thoroughly updated and revised fourth edition offers:

- New pedagogy including

---

chapter-opening summaries and outlines; marginal cues to identify key ideas in each paragraph; and extended excerpts from key historical texts ·

Increased and balanced coverage of women's roles in music history, ranging from discussions of key composers and performers like Isabella d'Este and Fanny Hensel to women's important roles as patrons · A custom score anthology drawn from the Oxford History of Western Music offers students full scores and analysis for key works from the text · A more user-friendly design makes it easier for students to quickly locate key information ·

Updates to the narrative throughout, including the most recent research findings along with updates to the reception of key works

A Concise American History Taylor & Francis

With two separate volumes on the 20th century. The final volume (v.6) is given over entirely to resources: a lengthy chronology, a checklist of books in English, lists of musical examples in order of appearance and by composer, and a comprehensive index.

Annotation 2004 Book News, Inc., Portland, OR (booknews.com).

A Concise History Rowman & Littlefield Publishers

"This book introduces us to the world of contemporary Japanese music and it guides us towards a better understanding of their world."—Luciano Berio

Yogaku discusses over a century of musical activity in Japan, detailing, in particular, the music that was inspired by Western music after the Meiji Restoration in the 19th century, and its development through the end of the 20th century. The book not only examines the infiltration of Western music into Japan, but also provides insight into the aesthetic and theoretical aspects of Japanese musical thought. The word *yogaku* (Western music) is made up of two characters: *yo*, which means "ocean" (that is, "over the ocean," meaning Western or foreign) and *gaku*, which means "music." Divided into two parts, the text covers the period preceding World War I as well as the

post-war period. The introduction provides a history of music's role in Japanese society, touching upon the differences in the functions of Japanese and Western music. Part One describes the complex process of a new musical world and the European musical ideas that penetrated Japan. Modernization through westernization is explored; the author details the differences between the traditional Japanese music and that composed under Western influence, as well as the French and German impact on Japanese musical compositions. Galliano looks at the appearance of music in schools and the first Japanese musical compositions, as well as nationalism's effect on music through propaganda and censorship. Part Two explores topics such as the post-war avant-garde, the 1960s boom in traditional music, and the closing decades of the 20th century. The next generation of Japanese composers are also considered. Japanese history and music scholars, as well as those interested in Japanese music, will want to include *Yogaku* in their collection.
