This work provides an analysis of the moves and manoeuvres that brought an end to the Cold War division of Europe. Coverage includes discussion of the opening of the Berlin Wall and a study of the relationship between West German Chancellor Helmut Kohl and reform Communist leader, Hans Modrow.

An American Life Penguin

WHEN YOU GROW up in a small town in the north woods, you have to make your own excitement. High spirits, idiocy, and showing off for the girls inspire Gary Paulsen and his friends to attempt: • Shooting waterfalls in a barrel • The first skateboarding • Breaking the world record for speed on skis by being

towed behind a souped-up car, and then . . . hitting gravel • Jumping three barrels like motorcycle daredevil Evel Knievel, except they only have bikes • Wrestling . . . a bear? Extreme sports lead to extreme fun in new tales from Gary ' s boyhood. A New York Times Bestseller

The Autobiography Simon and Schuster

Who doesn't love Lucy? The legendary actress, producer, and comedian steps into the Who Was? spotlight. Much like her hit TV show, I Love Lucy, Americans in the 1950s fell in love with Lucy. Born in New York in 1911, Lucille Ball was always a natural performer. She danced in the chorus of Broadway shows and acted in small parts in Hollywood movies. But Ball's true gift was comedy. She found a way to showcase her gifts in 1951 when CBS gave her the chance to star in a sitcom. She based the show on her life and called it I Love Lucy. Over sixty years later, it is still one of the most loved television shows of all time. Lucille Ball became the first woman to run a major television studio, Desilu, and her comedic genius has kept people laughing for generations.

Germany Unified and Europe Transformed Three Rivers Press (CA)

An influential civil rights attorney and second cousin to former Secretary of

State Condoleezza Rice describes the family beliefs and achievements that inspired her career, recounting her dedication to civil rights causes in areas ranging from transportation and education to the death penalty and the LAPD.

Power Concedes Nothing HarperCollins

NEW YORK TIMES BESTSELLER From the former secretary of state and bestselling author -- a sweeping look at the global struggle for democracy and why America must continue to support the cause of human freedom. "This heartfelt and at times very moving book shows why democracy proponents are so committed to their work...Both supporters and skeptics of democracy promotion will come away from this book wiser and better informed." --The New York Times From the end of the Cold War and the collapse of the Soviet Union to the ongoing struggle for human rights in the Middle East, Condoleezza Rice has served on the front lines of history. As a child, she was an eyewitness to a third awakening of freedom, when her hometown of Birmingham, Alabama, became the epicenter of the civil rights movement for black Americans. In this book, Rice explains what these epochal events teach us about democracy. At a time when people around the world are wondering whether democracy is in decline, Rice shares insights from her experiences as a policymaker, scholar, and citizen, in order to put democracy's challenges into perspective. When the United States was founded, it was the only attempt at self-government in the world. Today more than half of all countries qualify as democracies, and in the long run that number will continue to grow. Yet nothing worthwhile ever comes easily. Using America's long struggle as a template, Rice

draws lessons for democracy around the world -- from Russia, Poland, and Ukraine, to Kenya, Colombia, and the Middle East. She finds that no transitions to democracy are the same because every country starts in a different place. Pathways diverge and sometimes circle backward. Time frames for success vary dramatically, and countries often suffer false starts before getting it right. But, Rice argues, that does not mean they should not try. While the ideal conditions for democracy are well known in academia, they never exist in the real world. The question is not how to create perfect circumstances but how to move forward under difficult ones. These same insights apply in overcoming the challenges faced by governments today. The pursuit of democracy is a continuing struggle shared by people around the world, whether they are opposing authoritarian regimes, establishing new democratic institutions, or reforming mature democracies to better live up to their ideals. The work of securing it is never finished.

Condoleezza Rice :. Random House

'Undoubtedly the most powerful and immediate book to emerge from the Balkan horror of ethnic civil war' Antony Beevor, Daily Telegraph In 1993, Anthony Loyd hitchhiked to the Balkans hoping to become a journalist. Leaving behind him the legends of a distinguished military family, he wanted to see 'a real war' for himself. In Bosnia he found one. The cruelty and chaos of the conflict both appalled and embraced him; the adrenalin lure of the action perhaps the loudest siren call of all. In the midst of the daily life-and-death struggle

among Bosnia's Serbs, Croats and Muslims, Loyd was inspired by the extraordinary human fortitude he discovered. But returning home he found the void of peacetime too painful to bear, and so began a longstanding personal battle with drug abuse. This harrowing account shows humanity at its worst and best. It is a breathtaking feat of reportage; an uncompromising look at the terrifyingly seductive power of war. 'As good as reporting gets. I have nowhere read a more vivid account of frontline fear and survival. Forget the strategic overview. All war is local' Martin Bell, The Times

Condoleezza Rice: An American Life

University of Michigan Press

Illustrated biographies featuring a range of fascinating figures from history (and current figures, too!) provide great information and entertainment through short chapters and illustrations that will appeal to reluctant readers as well as middle readers in general. Original.

The Confidante Simon and Schuster

Ronald Reagan's autobiography is a work of major historical importance. Here, in his own words, is the story of his life—public and private—told in a book both frank and compellingly readable. Few presidents have accomplished more, or been so effective in changing the direction of government in ways that are both fundamental and lasting, than

Ronald Reagan. Certainly no president has more dramatically raised the American spirit, or done so much to restore national strength and self-confidence. Here, then, is a truly American success story—a great and inspiring one. From modest beginnings as the son of a shoe salesman in Tampico, Illinois, Ronald Reagan achieved first a distinguished career in Hollywood and then, as governor of California and as president of the most powerful nation in the world, a career of public service unique in our history. Ronald Reagan's account of that rise is told here with all the uncompromising candor, modesty, and wit that made him perhaps the most able communicator ever to occupy the White House, and also with the sense of drama of a gifted natural storyteller. He tells us, with warmth and pride, of his early years and of the elements that made him, in later life, a leader of such stubborn integrity, courage, and clear-minded optimism. Reading the account of this childhood, we understand how his parents, struggling to make ends meet despite family problems and the rigors of the Depression, shaped his belief in the virtues of American life—the need to help others, the desire to get ahead and to get things done, the deep trust in the basic goodness, values, and sense of justice of the American people—virtues that few presidents have expressed more eloquently than

Ronald Reagan. With absolute authority and a keen eye for the details and the anecdotes that humanize history, Ronald Reagan takes the reader behind the scenes of his extraordinary career, from his first political experiences as president of the Screen Actors Guild (including his first meeting with a beautiful young actress who was later to become Nancy Reagan) to such high points of his presidency as the November 1985 Geneva meeting with Mikhail Gorbachev, during which Reagan invited the Soviet leader outside for a breath of fresh air and then took him off for a walk and a man-to-man chat, without aides, that set the course for arms reduction and charted the end of the Cold War. Here he reveals what went on behind his decision to enter politics and run for the governorship of California, the speech nominating Barry Goldwater that first made Reagan a national political figure, his race for the presidency, his relations with the members of his own cabinet, and his frustrations with Congress. He gives us the details of the great themes and dramatic crises of his eight years in office, from Lebanon to Grenada, from the struggle to achieve arms control to tax reform, from Iran-Contra to the visits abroad that did so much to reestablish the United States in the eyes of the world as a friendly and peaceful power. His narrative is full of insights, from the unseen

dangers of Gorbachev's first visit to the United States to Reagan's own personal correspondence with major foreign leaders, as well as his innermost feelings about life in the White House, the assassination attempt, his family—and the enduring love between himself and Mrs. Reagan. *An American Life* is a warm, richly detailed, and deeply human book, a brilliant self-portrait, a significant work of history. *A Personal and Political Memoir* Twelve
This first volume of Margaret Thatcher's memoirs encompasses the whole of her time as Prime Minister - the formation of her goals in the early 1980s, the Falklands, the General Election victories of 1983 and 1987 and, eventually, the circumstances of her fall from political power. She also gives frank accounts of her dealings with foreign statesmen and her own ministers.

Extraordinary, Ordinary Family and Me

The author's reminiscences about her childhood in Germany, years of which were spent in a Nazi concentration camp. Includes several of her original poems.

Spies, Lies, and the Con Man Who Caused a War Simon and Schuster

Examines the life and achievements of Secretary of State Condoleezza Rice, from her childhood in

Alabama and Colorado to her controversial role in sending Americans to war in Iraq. Reprint.

A Memoir of My Years in Washington Macmillan

"A crucial study in the political manipulation of intelligence, understanding how Curveball got us into Iraq will arm us for the next round of lies coming out of Washington."—Robert Baer, author of *See No Evil: The True Story of a Ground Soldier in the CIA's War on Terrorism* Curveball answers the crucial question of the Iraq war: How and why was America's intelligence so catastrophically wrong? In this dramatic and explosive book, award-winning Los Angeles Times reporter Bob Drogin delivers a narrative that takes us to Europe, the Middle East, and deep inside the CIA to find the truth—the truth about the lies and self-deception that led us into a military and political nightmare. Praise for Curveball "Just when you thought the WMD debacle couldn't get worse, here comes veteran Los Angeles Times national-security correspondent Drogin's look at just who got the stories going in the first place. . . . Simultaneously sobering and infuriating—essential reading for those who follow the headlines."—Kirkus Reviews "In

this engrossing account, Los Angeles Times correspondent Drogin paints an intimate and revealing portrait of the workings and dysfunctions of the intelligence community."—Publishers Weekly "An insightful and compelling account of one crucial component of the war's origins . . . Had Drogin merely pieced together Curveball's story, it alone would have made for a thrilling book. But he provides something more: a frightening glimpse at how easily we could make the same mistakes again. . . . The real value of Drogin's book is its meticulous demonstration that bureaucratic imperative often leads to self-delusion."—Washington Monthly "Drogin delivers a startling account of this fateful intelligence snafu."—Booklist "By the time you finish this book you will be shaking your head with wonder, or perhaps you will be shaking with anger, about the misadventures that preceded the misadventures in Iraq. This book is so powerful, it almost refutes its subtitle: The man called Curveball did not cause a war; he became a pretext—one among many."—George F. Will

Curveball Simon & Schuster

A former national security advisor and secretary of state offers the compelling story of her eight years serving at the highest levels of government, including the difficult job she faced in the wake of 9/11.

Road Trip September Publishing

Condoleezza Rice, one of the most powerful and controversial women in the world, has until now remained a mystery behind an elegant, cool veneer. New York Times reporter Elisabeth Bumiller peels back the layers and presents a revelatory portrait of the first black female secretary of state and President George W. Bush's national security adviser on September 11, 2001. Drawing on extensive interviews with Rice and more than 150 others, including colleagues, family members, government officials, and critics, the book relates in more intimate detail than ever before the personal voyage of a young black woman out of the segregated American South, and offers dramatic new information about the events and personalities of the Bush administration. In the process, with great insight, Bumiller tells the sweeping story of a tumultuous

half-century in the nation's history.

Stories from the Long Road to Freedom Yearling
