(Book). If Howard Kaylan had sung only one song, the Turtles' 1967 No. 1 smash hit "Happy Together," his place in rock-and-roll history would still be secure. But that recording, named in 1999 by BMI as one of the top 50 songs of the 20th century, with over five million radio plays, is only the tip of a rather eye-opening iceberg. For nearly five decades, Howard Kaylan has been a player in the rock-and-roll revolution. In addition to his years with the Turtles, Kaylan was a core member of Frank Zappa's Mothers of Invention and the dynamic duo Flo and Eddie, and part of glam rock history with Marc Bolan and T. Rex. He's also given street cred and harmonies to everyone from

John Lennon, Bruce Springsteen and Alice Cooper to the Ramones and Duran Duran, to name just a few. Howard Kaylan's life has been a dangerous ride that he is only too happy to report on, naming names and shedding shocking tales of sex, drugs, and creative excess. *Shell Shocked* will stand alone as not only one of the best-told music-biz memoirs, but one with a truly candid and unmatched story of rock-and-roll insanity and success from a man who glories in it all.

**Happy Wife, Happy Life: Confessions of a Suburban Mom** Harper Collins

A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on “sustainability” rather than the defense of wild

---

places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth's thinking. In them he articulates a new vision that he calls "dark ecology," which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed "Uncivilization" manifesto, asks hard questions about how we've lived and how we should live.

Tracy Beckerman's kids have flown the coop, which has left her plenty of time to further settle into the happy life of a happy wife to a loving husband. Flowers are blooming, tails are wagging ... and the ducks are on the verge of a hostile takeover. In this collection of top hits from her nationally syndicated column, "Lost in Suburbia," Beckerman forges a path through the blissful chaos of her idyllic life in suburban New Jersey. She somehow manages to keep her cool despite an unending wave of dining disasters, awkward conversations with the doctor's office receptionist, and the horrors of \*gasp\* aging! Beckerman lays it all out with the refreshing honesty, humor, and sage advice that you'd expect from your best friend in the 'burbs. "Cool suburban mom"

A “compelling” up-close memoir of a career spent among marine mammals and a portrait of the daily lives of dolphins (Publishers Weekly). Working among charismatic and clever dolphins in the wild is a unique thrill—and this book invites us shore-bound dreamers to join Maddalena Bearzi as she travels alongside them. In a fascinating account, she takes us inside the world of a marine scientist and offers a firsthand understanding of marine mammal behavior, as well as the frustrations and delights that make up dolphin research.

Bearzi recounts her experiences at sea, tracing her own evolution as a woman and a scientist from her earliest travails to her transformation into an advocate for conservation and dolphin protection. These compelling, in-depth descriptions of her fieldwork also present a captivating look into dolphin social behavior and intelligence. Drawing on her extensive experience with the metropolitan bottlenose dolphins of California in particular, she offers insights into the daily lives of these creatures—as well as the difficulties involved in collecting the data that transforms hunches into hypotheses and eventually scientific facts. The book closes by addressing the critical environmental and conservation problems facing these

magnificent, socially complex, highly intelligent, and emotional beings. “Pairing vivid images of bottlenose dolphins swimming together and caring for one another with descriptions of the meticulous scientific work required to record their behavior, Maddalena Bearzi sheds light on the life of a field biologist...A beautifully written account.”—Library Journal

Another great tale of love gone wild from author Michelle Cunnah, a favourite voice of Avon Trade fans whose loveable characters are creating a stir. A good relationship is like a pair of comfortable

shoes, right? At first, they may pinch and squeeze, but with time (and blisters) they mould to your feet for a perfect fit. Rosie Mayford isn't sure she believes this theory--after all, she takes a size eleven wide, so she has first-hand experience of the trials and tribulations of finding exactly the right shoes. She's praying finding the right man won't be nearly that hard. With the "help" of her meddling family and friends, it's not, even if she partly found a Mr. Right just to get them off her back. But now what? Rosie and Jonathan couldn't be in more different places in their lives, and they are about to find out just how exhilarating-and disastrous--a mismatched love affair can be. Will they get to the part where they're broken in and life is nothing but great sex

and comforting hugs, or will one of them get sent off in scorn like a pair of too-small stilettos that felt okay in the store? What do you do when Mr. Right gets the timing wrong?

Covering all facets of the biology of a little-known genus, Peter V. Lindeman's lavishly illustrated Map Turtle and Sawback Atlas is both a scientific treatise and an engaging introduction to a striking group of turtles. Map turtles and sawbacks, found in and along rivers from Texas to Florida and north to the Great Lakes, fascinate ecologists and evolutionary biologists. Over a short geologic time span, these turtles achieved exceptional biological diversification. Their diets are also exceptionally diverse, and a significant difference in size distinguishes males from females. Adult males are typically half or less the shell length of

adult females, making map turtles and sawbacks the champions of sexual dimorphism among not only turtles but all four-legged vertebrates. Aesthetics also draw biologists and hobbyists to map turtles and sawbacks. While the male Sabine map turtle may look to some like a "pencil-necked geek," as the author puts it, markings on the shell, limbs, head, and neck make map turtles among the most attractive turtles on earth. Sawbacks feature a striking ridge down their shell. Few turtles show themselves off to such advantage. Photographs included here of *Graptemys* basking poses reveal to what improbable heights these turtles can scale, the spread-eagle sunning stances they adopt, the stacking of individuals on a crowded site,

---

and the heads that warily watch the world above the waterline. In lively prose, Lindeman details the habitat, diet, reproduction and life history, natural history, and population abundance of each species. A section on conservation status summarizes official state, federal, and international designations for each species, along with efforts toward population management and recovery as well as habitat preservation. The author also outlines promising avenues for future research, ranging from the effects of global climate change on populations to strategies for combating expansion of the pet trade.

The Map Turtle and Sawback Atlas Random House Tackles The Westing Game and four thematically related short stories: "The Cask of Amontillado,"

"The Monkey's Paw," "The Phantom Coach," and a ghost story by Charles Dickens, "The Signal-Man." This curriculum unit provides everything needed for in-depth study of classic fiction (except the readily available novels and short stories themselves): teaching directions, suggested schedules, background information, author bios, plot summaries, vocabulary study guides, discussion of literary elements, reproducible activities and assessments, and ideas for extensions. The time required for full treatment is four weeks for each novel, one week for each short story. Grades 68. Glossaries. Answer keys.

Shell Shocked "O'Reilly Media, Inc." In this O Me of Little Faith Ebook, author Jason Boyett brings you a transparent and personal account of his own of struggles with doubts and unbelief in living out his faith. With humor and frankness, Boyett uses personal anecdotes and a fresh look at

---

Scripture to explore the realities of pursuing Christ through a field of doubt. After three decades of knowing God, understanding Christianity, and living a Christian life, Boyett has come to the place where he can voice the tough questions and travel the road of uncertainty with blinders off, candor on. The message along the way is one of encouragement: Relax. Rely on the grace of a merciful God, a kind father who realizes that his finite creatures must have doubts, should have questions, and will have trouble making sense of an infinite Creator. Ultimately, Boyett concludes that doubt and faith are not polar opposites, but actually work together, existing side-by-side. Uplifting, entertaining, hopeful, *O Me of Little Faith* will strike a chord with you and any Christian who's dealing with the uncertainties of living life in pursuit of a God who occasionally seems to disappear.
