First Steps in SAP FI Configuration Espresso Tutorials GmbH

This book is for the professional financial manager, accountant, or bookkeeper who needs to learn the basics of SAP R/3 FI quickly, without wading through a morass of technical jargon. Featuring a clear, functional outline, copious sample screens, and simple step-by-step instructions, Using SAP R/3 FI presents the most widely used FI functions in plain, argot-free English, following menu lines from the actual program. The book also provides details about using FI for international business, such as translating the chart of accounts, keeping accounts in foreign currency, entering transactions in foreign currency, and revaluing accounts and open items in different currencies. You'll also learn the highlights of integrating R/3 FI with SD (order entry, shipping, and invoicing) and MM (purchasing, receiving, and inventory control). This remarkably detailed manual shows you how to use R/3 FI for all your basic accounting functions, including * General ledger * Accounts receivable * Accounts payable * System administration * And much, much more.

First Steps in SAP FI Configuration John Wiley and Sons

This book explains in details about the SAP Enterprise Structure (MM and related modules such as FI, LE, SD) Concept and Configuration Guide. Cash Management in SAP S/4HANA SAP PRESS

This up-to-date quick reference guides the reader through the most popular SAP module. It includes material on SAP ERP Financials, SAP FICO, and SAP R/3. Unlike most books that only provide questions and answers for certification or interview preparation, this book covers fifty common business situations related to ERP Financials/FICO and provides practical solutions for them. In addition, the book begins with over 200 FAQs and certification questions for those who need a quick review of the material. A CD-ROM with FICO templates, short cuts, and color figures from the book is included with the text.

SAP® ERP Financials and FICO Handbook Guru99

This book provides a comprehensive overview of the application of ERP Financials to the make to stock and make to order manufacturing process models. It is designed to provide valuable solutions and configuration/integration options that readers can use and apply directly in their daily activities. For Finance users, the book covers the standard business drivers and KPIs as they apply to each model, and lends guidance for configuring Financial Accounting and Controlling to maximize functionality for manufacturing finance. Implementation managers and consultants will benefit from the coverage of integrating ERP Financials with other SAP applications such as PP and MM, as well as the configuration sections for Master Data, Cost Object Controlling, and the Information System, among others. Readers from both functions will be able to make use of the numerous screen shots, configuration steps, best practice examples, and tips for system customization. Acknowledging the differences between the two primary manufacturing process models, the book is divided into three sections after an introductory chapter covering information generic to manufacturing models supported in SAP. Part I of the book covers the Make to Stock model, and comprises the bulk of book. Part II covers the Make to Order model. Part III provides a chapter filled with ready-to-use checklists and guides for budgeting and closing activities, and a chapter on

the application of SAP Financial Performance Management (FPM, formerly CPM) to the manufacturing finance scenario.

Configuring SAP Accounts Receivable & Accounts Payable SAP PRESS

This a Practical how to do book which guides you to become expert in End User, Implementation and Post Implementation Audit of SAP R/3 of FICO. The Functional Module of SAP R/3 FICO is the Backbone of all the other Modules. The FI and CO modules helps amplify functionality and features through application of customizing the system to meet accounting, financial, planning, and reporting needs in an organization. This book takes you through step by step guide on Implementation of SAP FICO module with Precise conceptual explanation and Guided Screenshots. Once the steps in implementation is finished it is necessary to ensure that all the activities are performed in accordance. As such the book provides in guided steps by step approach to verify the same which we call it as SAP FICO Audit Process. The post implementation or SAP FICO Audit Comprises of a widespread listing of important business process perils, along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives. Finally, a set of step by step functions performed by End User exercise are provided for practice. The Book is Unique in the sense that it deals with all three types of training needed for a SAP FICO Professional. Without having a clear idea of Settings in FICO other Modules Learning is ineffective. The book provides Implementation guidance through Explanation of why each task is performed and the key tables in SAP associated with each step. What you will learn? 1. The Book Initially takes you through Logistics Management which is the base of all Business Process and since almost everything comes under Logistics. 2. Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman's Language. 3. Provides you with a virtual firm's SAP R/3 FICO Step by Step Full Implementation Guide. 4. Most of the Materials do not help you in implementation in a sequential method. This book carries you with a sequential step such as in a particular order. 5. The Book also helps you to practice exercise at end of almost every sessions. 6. Most of the tutorials that exist in online do not explain the concepts. 7. It guides you with End User Training in FICO. POST IMPLEMENTATION SAMPLE Control Objective Company codes employed in the system should be set to productive. Control Description In case of post go-live actions, there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been transferred to the production system. In a normal SAP recommends, the functioning company codes should be marked as productive, as soon as the implementation happens. This configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes, comprising data deletion in the production server. Risk Here the risk is mistaken deletion of master & transactional data, which will unfavorably influence the system reliability. Test Steps Here we check the global company code configuration to confirm if the appropriate company codes are marked as Productive. For This Follow Step 15.1.1. We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15.1.2.

First Steps in SAP Financial Accounting (FI) Espresso Tutorials GmbH

When the stakes are high and the job is complex, rely on this complete guide to implementing Financial Accounting. Master the processes, subcomponents, and tools you need and align your FI system with unique business requirements, from intricate system configuration to versatile mobile apps. This book details step-by-step instructions and examples for integrating FI with CO, SD, PP, and MM. Make your FI system count Highlights: General Ledger accounting Custom projects Enterprise structure Global parameters Documents Tax and correspondence Accounts Receivable Accounts Payable Bank Accounting Asset Accounting Travel Management SAP Fiori SAP Fi/Co Step by Step Configuration with Video Tutorial Espresso Tutorials GmbH SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking

a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

SAP Fico Beginner's Handbook Lulu.com

This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book

discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author s humble attempt to bridge the gap by providing real life scenarios along with technical details.

This bestselling guide for business users shows you how to run Financial Accounting in SAP ERP. --

SAP S/4HANA Finance for Group Reporting Jones & Bartlett Publishers

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the

Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, valuate, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

Sap Training Tutorials SAP PRESS

This book on 'Configuring SAP Accounts Receivable & Accounts Payable (SAP S/4HANA Finance)' covers: Case Study Accounts Receivable and Accounts Payable Customer Accounts Vendor Accounts Incoming Invoices / Credit Memos Release for Payment Outgoing Payments Outgoing Invoices / Credit Memos Incoming Payments Payments with Payment Cards Dunning Open Item Clearing Down Payment Received Down Payment Made Adjustment Posting / Reversal Interest Calculation Closing Information System Apps for FI-A/R & FI-A/P The book starts with a case study that forms the basis for further discussions across the various Chapters. The case study mirrors a real life business enterprise that wants to implement SAP Accounts Receivable and Accounts Payable components, as a part of configuring SAP FI. The book provides an overview of SAP Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P). It, then, goes on to discuss customer and vendor accounts, in detail. It outlines the structure of customer / vendor master records, and elaborates the preparations and the configuration settings that you may need to make in the system to create / change / delete the master records. It discusses the various business transactions of both FI-A/R and FI-A/P viz., incoming invoices / credit memos, release for payment, outgoing payments, outgoing invoices / credit memos,

incoming payments, payments with payment cards, dunning, open item clearing, down payment received / made, adjustment posting / reversal, interest calculation, closing, information system and Apps for SAP FI-A/R and FI-A/P. It helps you to comprehend the configuration activities that you need to complete, in setting up these transactions in the system. For example, on configuring the settings for outgoing payments, it discusses (in detail) the global settings and the steps that are required for setting up the manual and the automatic payments. In dunning, it deals with basic settings, dunning procedure, printout, dunning process flow etc. In interest calculation, it starts with the fields (in customer / vendor master) that are relevant for item interest calculation and goes on to discuss the interest calculation process, global settings, actual interest calculation, interest posting and interest letters. In closing, it discusses the important closing operations like count (including balance confirmation), valuate and reclassify, in great detail. The book also discusses the FI-A/R and FI-A/P information system besides discussing the Apps for accounts receivable / accounts payable accountants, managers and credit controllers. As with my other books on SAP, this also follows a case-study approach to make your learning easy. Every effort has been taken to guide you, step-by-step, in configuring your SAP system in implementing SAP Accounts Receivable and Accounts Payable, in SAP S/4HANA (1909), to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand better a topic or a setting or a concept. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide) for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various configuration activities. In all, you can use this book as a desktop-reference for configuring SAP FI-A/R and FI-A/P.
