Conflict Resolution in Early Childhood Karen Taylor-Bleiker

"Filippo Aureli and Frans De Waal have succeeded in cross-fertilizing fields as disparate as ethology and medieval law to create a rich new field of research -- natural conflict resolution. It makes one see conflict resolution among humans through a new and fascinating lens. This is a landmark contribution!"—William Ury, co-author Getting to YES, author of Getting Past No and Getting to Peace

For courses in the Guidance and Management of Young Children. This text examines the nature of conflict among 2- to 8-year-olds from a research-based, constructivist/ecological perspective - integrating themes of caring, building classroom community, connecting curriculum, involving family and community, and responding to the current educational climate. The author thoroughly discusses children's conflicts, emphasizing that peer and community culture make up the foundation for preventing and resolving conflict, and advocates teaching conflict resolution skills via a "three-layer-cake" of understanding, management, and resolution. Coverage presents ways to create a caring classroom - both in physical environment and curriculum, to work with other adults in a child's life, and to implement peer mediation. Throughout, the material stresses the need to understand all children in light of applicable theory and current "best practice" in culturally responsive and inclusive classrooms.

There are many factors affecting a child's personality and the adult they become, but the least understood is birth order. Why is it that children in a family can share the same gene pool, a similar socio-economic environment and experience similar parenting styles yet have fundamentally different personalities, interests and even different careers as adults? Birth order! The implications for parents, teachers and adults involved with children are many. First published in 2003 to great acclaim, this fully revised and updated edition seeks to increase the reader's understanding of birth order theory, including the impact of a child's broader social environment and the rise of the standard two-child family, where the second-born is simultaneously the last-born. It will enable you to delve a little deeper and look for the constellation of positions within a family, giving you a clearer picture of your own quirks and ambitions, along with those of your siblings, children, partner, workmates, friends and colleagues. Addressing multiple births, children with a disability, genetic engineering, blended families, gender balance, only children and birth-order balance in the workplace, parenting expert and father of three Michael Grose challenges parents to raise each child differently according to his or her birth order.

Learn how to engage in and resolve conflict productively to improve work relationships and create a more equitable community for children. Conflicts are inevitable, often hard to navigate, and can quickly multiply and become unmanageable. And resolving conflict requires self-reflection, understanding, and vulnerability. But knowing how to tackle difficult conversations will strengthen relationships, create a more equitable community, and improve the impact educators have on the young children they work with. The first of its kind, Finding Your Way Through Conflict specifically focuses on conflict in early childhood education settings and gives concrete steps and strategies to help manage and resolve it productively. Authors Chris Amirault, Ph.D., and Christine M. Snyder, M.A., have decades of experience in early childhood education programs and conflict resolution. Built on their expertise and their own experiences, the book's conflict scenarios are engaging and authentic, empowering educators to get in and out of conflict in a variety of personal, organization, and cultural contexts. Some of these scenarios include: The Discombobulated Team: The children's artwork you posted in the classroom yesterday is gone. Who took it down—and why? The Intent/Impact Disagreement: You were only trying to help! So why is that parent offended? The Unexpected Disaster: Your team planned every aspect of that difficult parent meeting for days. The untold story of the root cause of America's education crisis—and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing

every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system—one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong—it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

From leading researchers, this book presents important advances in understanding how growing up in a discordant family affects child adjustment, the factors that make certain children more vulnerable than others, and what can be done to help. It is a state-of-the-science follow-up to the authors' seminal earlier work, *Children and Marital Conflict: The Impact of Family Dispute and Resolution*. The volume presents a new conceptual framework that draws on current knowledge about family processes; parenting; attachment; and children's emotional, physiological, cognitive, and behavioral development. Innovative research methods are explained and promising directions for clinical practice with children and families are discussed.

"One of the most important books of our modern era" — Amb. Jaime de Bourbon For anyone struggling with conflict, this book can transform you. Negotiating the Nonnegotiable takes you on a journey into the heart and soul of conflict, providing unique insight into the emotional undercurrents that too often sweep us out to sea. With vivid stories of his closed-door sessions with warring political groups, disputing businesspeople, and families in crisis, Daniel Shapiro presents a universally applicable method to successfully navigate conflict. A deep, provocative book to reflect on and wrestle with, this book can change your life. Be warned: This book is not a quick fix. Real change takes work. You will learn how to master five emotional dynamics that can sabotage conflict outside your awareness: 1. Vertigo: How can you avoid getting emotionally consumed in conflict? 2. Repetition compulsion: How can you stop repeating the same conflicts again and again? 3. Taboos: How can you discuss sensitive issues at the heart of the conflict? 4. Assault on the sacred: What should you do if your values feel threatened? 5. Identity politics: What can you do if others use politics against you? In our era of discontent, this is just the book we need to resolve conflict in our own lives and in the world around us.
