This series of monographs is dedicated to the increasingly vital area of prevention in healthcare. The works are organized into four categories of preventive practice: education, social competency enhancement, natural caregiving, and systems change. Tragedy should not and need not occur before a school or community begins making efforts to prevent violence. This volume describes the steps taken by Responding In Peaceful and Positive Ways (RIPP), a program developed to promote 'non-violence' among students in middle schools. RIPP provides young people with new ways to respond to conflict. Using the acronym RAID, the students are taught four types of non-violent options: Resolve, Avoid, Ignore, and Diffuse. By teaching that they have other choices in any conflict, the idea that 'fighting' is a necessary response to an insult or a conflict is dispelled. RIPP also teaches the need for everyone to accept differences, to affirm those with whom they come in contact, and not to engage in 'put downs' of others. This empirically validated program has been proven to work in a variety of settings and was designed with real-life experiences in mind. It was originally developed and implemented in collaboration with school administrators in both urban and rural settings.

Promoting Non-Violence in Early Adolescence Routledge

Praise for The Handbook of Conflict Resolution "This handbook is a classic. It helps connect the research of academia to the practical realities of peacemaking and peacebuilding like no other. It is both comprehensive and deeply informed on topics vital to the field like power, gender, cooperation, emotion, and trust. It now sits prominently on my bookshelf." —Leymah Gbowee, Nobel Peace Prize Laureate "The Handbook of Conflict Resolution offers an astonishing array of insightful articles on theory and practice by leading scholars and practitioners. Students, professors, and professionals alike can learn a great deal from studying this Handbook." —William Ury, Director, Global Negotiation Project, Harvard University; coauthor, Getting to Yes and author, The Third Side "Morton Deutsch, Peter Coleman, and Eric Marcus put together a handbook that will be helpful to many. I hope the book will reach well beyond North America to contribute to the growing worldwide interest in the constructive resolution of conflict. This book offers instructive ways to make this commitment a reality." —George J. Mitchell, Former majority leader of the United States Senate; former chairman of the Peace Negotiations in Northern Ireland and the International Fact-Finding Committee on Violence in the Middle East; chairman of the board, Walt Disney Company; senior fellow at the School of International and Public Affairs, Columbia University "Let's be honest. This book is just too big to carry around in your hand. But that's because it is loaded with the most critical essays linking the theory and practice of conflict resolution. The Handbook of Conflict Resolution is heavy on content and should be a well-referenced resource on the desk of every mediator—as it is on mine." —Johnston Barkat, Assistant Secretary-General, Ombudsman and Mediation Services, United Nations

Ensure your staff and children feel happy and secure in their school environment, with the help of Whole-School Strategies for Anger Management. This book has a much wider perspective than the other more traditional anger management resources available. It considers a whole-school approach, including a tried-and-tested programme with resources for pupils as well as a new ground-breaking staff development element. A facilitator guide, with a programme of activities, PowerPoint presentations and resources, will guide staff in looking at how they manage their strong emotions and how they can help to create classrooms in which strong emotions are handled effectively. Anger can be difficult to manage, but it is an essential part of being human and is a potentially useful emotion. Getting in touch with our emotional intelligence can help us to understand our own anger and to understand children's anger. The book highlights the importance of continually trying to manage our feelings effectively, especially in the roles of leader, teacher, teaching assistant and other support workers. The development of an anger management strategy in a school should be considered as part of a whole-school approach to managing behaviour. Whole-School Strategies for Anger Management will ensure you feel confident to bring about the changes necessary for a happy and secure learning environment. Starting from the premise that managers will structure the process, but that implementation will be carried out by staff, this publication provides training and support at several levels by: recognising the effects of staff behaviour on student outcomes teaching the skills for problem solving, managing conflict and de-escalating angry behaviour understanding the components of anger setting up pupil anger management groups. With a whole-school approach, this resource allows staff to consider the significance of their relationship with students and the various ways that anger can be managed throughout all aspects of school life.

Whole-School Strategies for Anger Management Saint Mary's Press

Have you been searching for a way to resolve conflict that doesn't involve a series of ten or more steps? Do you think that perhaps a key to conflict resolution must come from within? How can teachers and pre-service teachers help their students learn and use strategies for conflict resolution? Tools for Conflict Resolution is a practical method for teaching conflict resolution skills to students in grades K-12. Conflict is a part of everyone's life. It is the authors' belief that if each student is given tools for handling conflict, and these tools are used each time conflict arises that soon students become proficient conflict managers. This book begins with a chapter, which introduces Peter Senge's five disciplines: Personal Mastery, Mental Models, Shared Vision, Team Building, and Systems Thinking. After reading this chapter, the reader is able to embrace the five disciplines and begin practicing the adult level. As teachers, we teach from who we are. The rest of the book is filled with actual lesson plans, which are directly tied to the Multiple Intelligences Theory and are developmentally appropriate for students. Case studies, role-plays, skits, literature, songs, and co-operative learning activities are the primary instructional methods used to teach students conflict resolution skills. An annotated bibliography is included to assist teachers in extending lessons. These lessons may be taught during Social Studies as a unit on character education or could be used during a guidance class.
