Construction Contract Documents – Common Parts to a Contract Unlike contracts in other industries, a construction

contract isn't one single document. Instead, it is a collection of documents that are prepared by a number of different parties. Prudent clients, GCs and subs should read their contract multiple times over.

Construction drawing - Designing Buildings Wiki

A set of construction documents is a set of drawings that an architect produces during the design development phase of a construction project. They serve as a project manual during the construction phase, and they assist permitting agencies and inspectors from local governments, who have to clear the project. An architect

must produce two sets of construction drawings that specify every detail of their final design.

Critical Contract Documents for Every Construction Project
A construction warranty is an assurance given to a client by your construction company that the materials to be used in the construction project comply with the standards of the construction industry. The form gives the customer the guarantee that the resources are up to the mark.

Construction Document Management Collabor8online enables you to share

your Project Documentation securely, quickly and easily, with colleagues, clients and Subcontractors. Automatic version control ensures that everybody always has the latest version and the inbuilt activity audit ensures that you will always know who did what, and when. What are the Contents of Construction Documents? Construction documents include all building plans, specifications, and supporting documents used during the completion of a construction project. These documents serve several purposes. First, they help translate the

needs to the owner or the owner of the developer into a buildable format that can be universally understood within the construction industry. Second, they allow the owner to put the project out for bid and to obtain permits from local authorities.

Contract documents for construction - Designing Buildings Wiki

A construction contract agreement is a principal document that sets a date and specifies which parties are going to participate in the construction process. Usually, the contract agreement is executed between

the owner of the project and the contractor (or supplier) that is providing the requested service.

Construction drawing is the general term used for drawings that form part of the production information that is incorporated into tender documentation and then the contract documents for the construction works. This means they have legal significance and form part of the agreement between the employer and the contractor.
