Construction - Osha Safety Manual
The safety manual is one of the
basic necessities in the business of
construction. The employees have
right to know how the employer
maintain safety at workplace and

being an employer you must provide
employees with these kinds of
manual to avoid any problematic
situation in future.

SAFETY HEALTH MANUAL - R&O
Construction

Construction is a high hazard industry
that comprises a wide range of activities
involving construction, alteration, and/or
repair. Construction workers engage in
many activities that may expose them to
serious hazards, such as falling from
rooftops, unguarded machinery, being
struck by heavy construction equipment,
electrocutions, silica dust, and asbestos.

Construction Safety Manual - Print
A Manual

Construction is a high hazard
industry that comprises a wide
range of activities involving
construction, alteration, and/or

repair. Having and implementing a construction safety manual is a must! Examples include residential construction, bridge erection, roadway paving, excavations, demolitions, and large scale painting jobs.

Construction Safety Manual

A Construction Safety Plan is a written document that includes proactive measures to detect and correct jobsite hazards before they can cause injury or illness to contractors and workers. Since construction is a high-hazard industry, OSHA requires a written plan.
