Consumer Education & Economics is a comprehensive consumer education program covering three broad areas: understanding our economy, managing family and personal finances, and making well-informed purchasing decisions. The up-to-date content includes credit, identity theft, new investment options, estate planning, using

financial software, consumer ethics, and choosing child and adult care services. Updated content is particularly time sensitive, with many recent developments being addressed: new consumer laws, changes in our health care system, and the rapid growth of Internet resources. Skill development in critical thinking, decision-making, and resources management is emphasized. Colorful charts and graphs summarize information in easy-to-grasp, visually interesting ways.

Consumer Education

Handbook of U.S. Consumer Economics presents a deep understanding on key, current topics and a primer on the landscape of contemporary research on the U.S. consumer. This volume reveals new insights into household decision-making on consumption and saving, borrowing and investing, portfolio allocation, demand of professional advice, and retirement choices. Nearly 70% of U.S. gross domestic product is devoted to consumption, making an understanding of the consumer a first order issue in macroeconomics. After all, understanding how households played an important role in the boom and bust cycle that led to the financial crisis and recent great recession is a key metric. Introduces household finance by examining consumption and borrowing choices Tackles macro-problems by observing new, original micro-data Looks into the future of consumer spending by using data, not questionnaires
