Unfortunately most consumers are totally unprepared when confronted with an unexpected bill for a costly mechanical breakdown repair their service contract or warranty refuses to pay. It is at this crucial moment that critical steps must be immediately taken which could save you thousands of dollars. Laying the groundwork from page one in concise, easily understood language, author and industry veteran Terry M. Thacker's book presents an in-depth, non-technical explanation that pulls the curtain back on the seemingly unfathomable world of automotive service contracts and warranties. Through his insightful direction, you will feel empowered with the invaluable information and strategies unfolding in each chapter.
