**Scientific American** Signet

The best buy is right at your fingertips with the 1995 edition of this popular guide. Go fully armed to appliance and electronics stores with all the information needed to make the best purchases of cameras, camcorders, refrigerators, and more. (Consumer Guides)

John Wiley & Sons Incorporated

This is a must for those who are tired of power brownouts and blackouts, skyrocketing energy bills and the feeling that there is nothing we can do to help resolve these problems ourselves. Don't wait for utility bill sticker shock to worsen, or sit through another power outage or energy disruption. This new edition of the guide can help readers to seize their own destiny, become more self-reliant and use the available technology to make their homes more comfortable and their power bills more affordable. Two experts on solar energy have updated their classic guide for homeowners and businesses. Learn about numerous new products, proven reliable and effective, which are now available on the shelves of hardware stores, home supply centres and other outlets. The new edition includes updated information on solar energy tax credits and a host of new state programs supporting clean energy. The incentives total over \$3 billion for clean energy installations, and the authors provide a quick guide to accessing these and other consumer benefits.

National Consumer Protection Hearings Claitor's Law Publishing

Consumer Guide takes the time to evaluate the goods most people buy most often--from camcorders to refrigerators to cars--ranking each product for durability, performance, efficiency, design, price, and value. As always, advertising is not accepted, so the reviewers are unbiased and accurate.

1995 Annual Consumer Guide Books

THE MOST COMPLETE AND UP-TO-DATE GUIDE AVAILABLE TO ENERGY SAVINGS IN THE HOME Praise for the Ninth Edition: A Penny-Wise Guide to 'Buttoning Up Your House' -The New York Times ...the most comprehensive resource to home energy savings that I've seen. Every homeowner and environmentally conscious (or utility paying) renter should have a copy. - Green Living The advice here will also save you hundreds of dollars a year in energy costs. -Better Homes and Gardens The Consumer Guide to Home Energy Savings has sold nearly a quarter of a million copies. Completely revised to incorporate the latest developments in green technology, this well-organized and highly readable manual is the definitive reference for consumers who want to better their home's performance while reducing their energy bills. Updated and expanded chapters focus on specific aspects of any home, such as heating and cooling, ventilation, electronics, lighting, cooking and laundry, and provide helpful explanations for each, including: - Energy use characteristics - Comparisons between available technologies - Cost-effective repair and replacement options - Step-by-step guidance for finding the right equipment. This comprehensive resource is packed with tips on improving existing equipment and guidance for when and why to invest in new purchases, as well valuable pointers on locating grants or incentives offered by local governments and utilities. It is a must-read for anyone concerned about reducing both their energy bills and their environmental impact. To help bring you the very best inspiration and information about greener, more sustainable lifestyles, Mother Earth News is recommending select New Society Publishers books to its readers. This book is one of them. Jennifer Thorne Amann is the Buildings Program Director at the American Council for an Energy-Efficient Economy. Alex Wilson is the founder of BuildingGreen, Inc., Executive Editor of Environmental Building News, and author of Green Building Products and Your Green Home. Katie Ackerly holds Masters degrees in Architecture and Building Science from UC Berkeley and works for David Baker + Partners, an architecture firm in San Francisco.
