positions you for success on licensing and certification exams. Coverage of essential sciences and practical application helps you study for and pass licensing and certification exams, including the Massage and Bodywork Licensing Examination (MBLEx) and Board Certification in Therapeutic Massage and Bodywork (BCTMB). Over 700 full-color line drawings and photos show muscle locations, attachments, and actions — required knowledge for passing certification exams and for practicing massage therapy. ELAP-compliant content

ensures that your skills and knowledge of massage therapy meet the proficiency recommendations of the Entry-Level Analysis Project. Learning features include chapter outlines, objectives, summaries, key terms, practical applications, multiple-choice review and discussion questions, plus workbook sections on Evolve. Biomechanics Basics chapter includes gait assessment and muscle testing activities along with critical thinking questions. Sections on pathologic conditions include suggestions for referral protocols as well as indications

and contraindications for therapeutic massage. Coverage of nutrition explains how nutrition and nutritional products might affect or interfere with massage therapy, describing the basics of nutrition, the digestive process, and all of the main vitamins and minerals and their functions in the body. Practical Applications boxes include photos of massage techniques and settings, and help you learn competencies and apply material to real-world practice. The Savvy Student's Guide to Online Learning prepares students of all kinds for contemporary online learning. While technologies and formats vary, this book serves as an authoritative resource for any student enrolling in an online degree program or taking an online course. Topics covered include: • How to become a great online student • Creating an online presence • Interaction and communication techniques • Online group projects and individual work • Technological requirements and how to get technical support • Online classroom "netiquette" and time management The authors, both experts in online education,

introduce the information and skills required of successful online students to navigate this new learning landscape with confidence. A highly useful companion website provides video presentations that explain the different types of online learning as well as a real online course with activities for students to practice and interact with other learners around the world.
