Reflective Teaching in Second Language

Classrooms introduces teachers to ways of exploring and reflecting upon their classroom experiences, using a carefully structured approach to self-observation and self-evaluation. Teachers are encouraged to collect data about their own teaching; to examine their attitudes, beliefs, and assumptions; and then to use the information obtained as a basis for critical reflection on teaching practices. The approach is not linked to a particular method, but rather can be applied to a variety of approaches and teaching situations. Each chapter includes thought-provoking questions and activities

appropriate for group discussion or self-study.

Selected by the Modern Library as one of the 100 best

nonfiction books of all time From the Modern Library 's new set of beautifully repackaged hardcover classics by

Truman Capote—also available are Breakfast at Tiffany 's and Other Voices, Other Rooms

(in one volume), Portraits and Observations, and The Complete Stories Truman Capote 's masterpiece, In Cold Blood, created a sensation when it was first published, serially, in The New Yorker in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of

contradictory emotions. answers included,

“ I thought he was a very nice gentleman, ” he says of Herb Clutter. “ Soft-spoken. I thought so right up to the moment I cut his throat. ” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers ’ flight, Capote ’ s account is so detailed that the reader comes to feel almost like a participant in the events.
