In 2004 the Indonesian government made a

commitment to provide its entire population with

health insurance coverage through a mandatory public

health insurance scheme. It has moved boldly already

provides coverage to an estimated 76.4 million poor

and near poor, funded through the public budget.

Nevertheless, over half the population still lacks

health insurance coverage, and the full fiscal impacts

of the government's program for the poor have not

been fully assessed or felt. In addition, significant deficiencies in the efficiency and equity of the current health system, unless addressed will exacerbate cost pressures and could preclude the effective implementation of universal coverage (Ue and the desired result of improvements in population health outcomes and financial protection. For Indonesia to achieve UC, systems' performance must be improved and key policy choices with respect to the configuration of the health financing system must be made. Indonesia's health system performs well with respect to some health outcomes and financial protection, but there is potential for significant improvement. High-level political decisions are necessary on key elements of the health financing reform package. The key transitional questions to get there include: [the benefits that can be afforded and their impacts on health outcomes and financial protection; [how the more than 50 percent of those currently without coverage will be insured; [how to pay medical care providers to assure access, efficiency, and quality; [developing a streamlined and efficient administrative structure; [how to address the current supply constraints to assure availability of promised services; [how to raise revenues to finance the system, including the program for the poor as well as currently uninsured groups that may require government subsidization such as the more than 60 million informal sector workers, the 85 percent of workers in firms of less than five employees, and the 70 percent of the population living in rural areas.

English Sentence Analysis: An introductory course is designed as a 10-week course for students of English Language and Literature, Linguistics, or other language related fields. In 10 weeks the student will be proficient in English analysis at sentence, clause and phrase level and have a solid understanding of the traditional terms and concepts of English syntax. This introduction prepares for practical courses in grammar and writing skills and for theoretical courses in syntactic argumentation. The Course Book provides sentence structures in clear graphics; logically structured chapters with Introductions and Summaries; exercises with quotations and excerpts from English, American and Australian literature and pop songs. English Sentence Analysis: An introductory course has been classroom tested at various universities. The students seem to enjoy the 'dreaded' syntax course and pass rates have gone up significantly from 50 to 70%. Originally, this book was accompanied by a CD-rom with a Practice Program for Windows. The Practice Program on CD-rom is not updated anymore by its creators and as a result is no longer compatible with current Windows versions. For this reason, we have ceased to include it with the book.

This textbook introduces the main units and concepts you require to describe speech sounds accurately. By working through the book and the various exercises included, you will come to understand the need for a dedicated system of description and transcription for speech sounds, and for

a degree of phonological abstraction to support our understanding of the behaviour of sounds in particular languages and varieties. You will learn to carry out elementary, broad phonetic transcription, and be able to establish contrastive vowel and consonant systems for your own varieties and to express simple generalisations reflecting the productive and predictable patterns of English sounds. At the end of the book there is a section guiding you through some of the exercises and there is also a detailed glossary which will be useful for assignments or revision during exams.

Introduction to Academic Writing John Wiley & Sons

Over the years, the Englishes of Singapore and Malaysia have developed into varieties in their own right, ranging from the sub-varieties spoken by people with high levels of English-medium education and of higher socio-economic status. This text volume illustrates this from a range of examples of spoken and written Singapore and Malaysian English as well as advertising pamphlets, newspaper advertisements and literary texts. The introduction to the volume sketches the historical and ethnic background, the increase in the functions of English in the colonial and earlier post-colonial period and the divergent language policies which have led to a decline in the status and functions of English in Malaysia but an ever increasing emphasis on it in Singapore. Each text is accompanied by a set of notes which explain grammatical and lexical characteristics and give information about the background of the text.

Reflective Teaching in Second Language Classrooms introduces teachers to ways of exploring and reflecting upon their classroom experiences, using a carefully structured approach to self-observation and self-evaluation. Teachers are encouraged to collect data about their own teaching; to examine their attitudes, beliefs, and assumptions; and then to use the information obtained as a basis for critical reflection on teaching practices. The approach is not linked to a particular method, but rather can be applied to a variety of approaches and teaching situations. Each chapter includes thought-provoking questions and activities appropriate for group

discussion or self-study.
