The JCT standard forms of building contract require a thorough understanding of their procedural requirements, as well as their legal implications. They require both the contractor and the architect, on behalf of the employer, to send a wide range of notices and letters if each party is to protect its legitimate interests. The main contract forms are also supported by complex sub-contract documentation. Therefore, it is not surprising that when this book of specimen letters, notices and forms was first published, it was widely welcomed by the construction industry. The book provides examples of documentation likely to be required for a contract under the following JCT forms: ? the Standard Form of Building Contract ? the Intermediate Form of Building Contract ? the Agreement for Minor Building Works ? the Standard Form of Building Contract With Contractor's Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched. The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants, Construction and Regeneration Act 1996, and in particular, the new payment and adjudication provisions. For the first time it features documentation for use with the JCT design and build form. Commercial Contracts John Wiley & Sons

The CMP is not shared with the other party since it deals exclusively with the internal considerations and mechanics associated with one party's administration and management of its rights and responsibilities under the Contract. The CMP supplements the Contract and also permits a documented methodology for applying lessons learned from past transactions.
