Construction professionals of all kinds frequently need legal advice that is straightforward as well as authoritative and legally rigorous. Building on the success of two previous editions, David Chappell returns to provide answers to 225 FAQs from his experience as Specialist Advisor to the RIBA. With 50 new questions, and thorough updates to address changes to the law and contracts, this is an invaluable first port of call for any construction law problem. Questions range in content from extensions of time, liquidated damages and loss and/or expense to issues of practical completion, defects, valuation, certificates and payment, architects' instructions, adjudication and fees. Among the new questions are: Is the contractor bound by its price even if there is an error? How do terms about working in a spirit of trust affect other clauses? Can architects lose their rights to certify under JCT 2011 contracts? Every question included has been asked of David Chappell during his career, and he uses his vast experience to provide clear, easy to follow advice in this book. Most were originally asked by architects, but the answers will be of wide interest to everyone involved in construction.

With 54 essay questions and accompanying sample answers, The PPE: The Skill of Analysis is the ideal study tool for law students because it provides the most utility for the money spent. First-year students nationwide benefit from this book because they do not need to purchase six different supplements to practice their skills because The PPE includes nine questions for each of the core subjects of Civil Procedure, Constitutional Law, Contracts, Criminal Law, Real Property, and Torts. The PPE also ensures students can effectively use the book throughout the semester. Most supplements randomly combine topics for each subject and students must wait until reading week to practice their exam-taking skills because the questions include topics from the beginning and the end of the course. The PPE strategically pairs commonly tested topics and presents the topics in the order they often appear on the syllabus. Finally, the book avoids overwhelming students by focusing on a specific learning objective. Instead, the goal is to improve analysis, one of the most important skills in the legal profession, with concrete steps on how to execute the book's advice in real-life situations. The PPE includes a legal-analysis template, active-learning worksheets that walk students through the three-step process of

analysis, and sample answers that use IRAC, headers, and paragraphs to mirror what the students should strive to achieve on their exams.

Features of New Jersey Real Estate License Exam Prep (NJ-RELEP): National Principles & Law Key Point Review (45 pages) Real Estate Math Key Formula Review & Practice (20 pages) New Jersey-Specific Laws and Practices (35 pages) National Practice Tests (500 questions) New Jersey Practice Tests (100 questions) New Jersey Sample Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-racking to prepare for. That's why we created New Jersey Real Estate License Exam Prep (NJ-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works – or fails to work. NJ-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is New Jersey-specific – not just simplistic national content, but terse, relevant and accurate New Jersey laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. NJ-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice – one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question selection, is further tailored to the state testing outline promulgated by PSI for New Jersey. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your New Jersey license exam. A word about the test questions... NJ-RELEP's testing practice section consists of ten national practice tests, six state practice tests, and one state exam sample test. The national practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews – which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your New Jersey real estate exam. So good luck!! For students looking for a New Jersey textbook to complement New Jersey Real Estate License Exam Prep, we have Principles of Real Estate Practice in New Jersey.
