Hard To Imagine is the unofficial third book of three consecutive volumes of poetry written during 2020 by Robert Benefiel. The work in this go around was deemed to have a different enough voice from the other poems in the previous two books produced from that year, that it was decided to compile them into their own separate, and smaller, body of work. Ranging in tone from playful (Dot Dot Dot), to contemplative (Pre-written Suicide Note For All The People Who Didn't Have The Time, Words, Or Want, To Write One), to dark humor (They Go By the Name Parade) to Abstract (From A Dove Into A Phone), the pieces portray as diverse an aspect to the writers work as ever before, and as such tries to make art out of anything it can.

With the ferocity of fire literally exploding from his fingertips, Ignis is an element to be reckoned with. Bursting from Mother Nature's womb near the beginning of time, he has used Earth as his toy. Millennia later, Ignis meets the Flame to his fire. Flame is the only human who has ever seen him in his human form while dancing and rolling within

his element. The child he encounters grows into the most fascinating woman of his life—the irony is almost too much; his body burns for her. Flame has always known there was no one else for her but Ignis, her Fire. Fire envelops her being; he sears her essence and makes her body his. Loving an element means being protected by him. Flame is an arson investigator on a mission to find a man who would murder his innocent wife to gain custody of their three children. When Flame's life is in danger, there isn't much time—Fire can't be controlled. When an element claims you, it claims you—body, mind and soul. Flame needs to temper Ignis, an uneasy task, as there is no element more primal than, Fire.

The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the time, BMW were going to have to create something as special and innovative as its longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's modern MINI has become the pinnacle of small yet funky family cars in the premium small (and sometimes not so small) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stohtert explores the journey from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.

Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October, 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.
