The “shocking” and “suspense-packed” bestseller about one teacher’s stand against student violence, and the basis for the Academy

Award–nominated film (The New York Times Book Review). After serving his country in World War II, Richard Dadier decides to become an English teacher—and for the sin of wanting to make a difference, he’s hired at North Manual Trades High School. A tough vocational school in the East Bronx,

Manual Trades is home to angry, unruly teenagers exiled from New York City's regular public schools. On his first day, Dadier endures relentless mockery and ridicule and makes an enemy of the student body by rescuing a female colleague from a vicious attack. His fellow educators are bitter, disillusioned, and too afraid of their pupils to risk turning their backs on them in the classroom. But Dadier refuses to give up without a fight. Over the course of the semester, he tries again and again to break through the wall of hatred and scorn and win his students' respect. The more he learns about their difficult circumstances, the more convinced he becomes that a good teacher can make a difference in their lives. His idealism will be put to the ultimate test, however, when a long-simmering power struggle with his most intimidating student explodes into a violent schoolroom showdown. The basis for the blockbuster film starring Glenn Ford and Sidney Poitier, Evan Hunter's *The Blackboard Jungle* is a brutal, unflinching look at the dark side of American education and an early masterpiece from the author who went on to write the gritty *87th Precinct* series as Ed McBain. Drawn from Hunter's own experiences as a New York City schoolteacher, it is a "nightmarish but authentic" drama that packs a knockout punch (Time).

A police detective hunts for a pattern in a puzzling murder spree in this mystery by “ a master ” (Time). A blind violinist taking a smoke break. A cosmetics sales rep cooking an omelet in her own kitchen. A college professor trudging home from class. A priest contemplating retirement in the rectory garden. An old woman walking her dog. These are the seemingly random targets, all shot twice in the face. But most serial killers don ’ t use guns. Most serial killers don ’ t strike five times in two weeks. And most serial killers ’ victims have something more in common than just being over fifty years of age. Now it falls to Det. Steve Carella and his colleagues in the 87th Precinct to find a connection that will crack this case—before another body is found. As Entertainment Weekly said about this long-running, much-loved police procedural series: “ Imagine your favorite Law & Order cast solving fresh mysteries into infinity, with

It should have been the night that launched a new pop idol. Tamar Valparaiso is young and beautiful, with the body and voice of an angel, and the stage is set for her to launch her debut album, *Bandersnatch*, on a luxury yacht in the heart of the city. But halfway through her performance, while the

partygoers look on helplessly, masked men drag Tamar off the stage and into a waiting speedboat. Detective Steve Carella is just showing up for the graveyard shift when news of the kidnapping comes in. Working disjointedly with a Joint Task Force that calls itself "The Squad," Carella and the men and women of the Eight-Seven must find Tamar before time -- or indeed her very life -- runs out. In this brilliant look at the music industry, Ed McBain once again combines his mastery of the form with the fast-paced dialogue and intricate plotting that have become his signature.

The fiftieth novel in the 87th Precinct series, Ed McBain returns to Isola, where detectives Meyer Meyer and Steve Carella investigate a murder which leads them to the seedy strip clubs and bright

lights of the theater district. In this city, you can get anything done for a price. If you want someone's eyeglasses smashed, it ' ll cost you a subway token. You want his fingernails pulled out? His legs broken? You want him more seriously injured? You want him hurt so he ' s an invalid his whole life? You want him skinned, you want him burned, you want him—don ' t even mention it in a whisper—killed? It can be done. Let me talk to someone. It can be done. The hanging death of a nondescript old man in a shabby little apartment in a meager section of the 87th Precinct was nothing much in this city, especially to detectives Carella and Meyer. But everyone has a story, and this old man ' s story stood to make some people a lot of money. His story takes Carella, Meyer, Brown, and Weeks on a search through Isola ' s seedy strip clubs and to the bright lights of the theater district. There they discover an upcoming musical with ties to a mysterious drug and a killer who stays until the last dance. The Last Dance is Ed McBain's fiftieth

novel of the 87th Precinct and certainly one of his best. The series began in 1956 with Cop Hater and proves him to be the man who has been called “ so good he should be arrested. ”
