1. Finance is the art and science of managing money. Finance affects all individuals, businesses, and governments in the process of the transfer of money through institutions, markets, and instruments. At the personal level,

finance is concerned with an individual's decisions regarding the spending and investing of income.

Google Business Principles of Corporate Finance is the worldwide leading text that describes the theory and practice of corporate finance.

Throughout the book the authors show how managers use financial theory to solve practical problems and as a way of learning how to respond to
