James W. Martin is a Florida Bar Board Certified Real Estate Lawyer and Adjunct Professor of Law at Stetson University College of Law who, for over forty years,

has practiced Florida real estate, wills, trusts, probate, corporations, nonprofits, and business law. The author has seen too many nonprofit corporations improperly formed and maintained. Some failed to file for tax-exempt status after incorporation; some failed to hold annual meetings and file annual reports; some failed to prepare meeting minutes and maintain records; and some failed to follow statutory procedures. Failure to comply with the basics of nonprofit corporation law can result in real estate title problems, litigation, taxes, penalties, and potential personal liability. This book provides a step-by-step process with forms and checklists for forming and maintaining Florida nonprofit corporations to avoid these problems. It is primarily directed to lawyers because Florida nonprofit corporations are legal entities created under the Florida Not For Profit Corporation Act, so having a law degree really should be a prerequisite to forming and maintaining nonprofit corporations. However, the author realizes that we live in an age where nonlawyers freely access these materials on the Internet, so he has written this book in plain language that does not require a law degree to understand. But his message for nonlawyers reading this book is to be sure to engage a Florida-licensed lawyer on their behalf to review any document before it is signed or filed. *Hearings Relating to Madison Guaranty S&L and the Whitewater Development Corporation, Washington, DC Phase: Resolution Trust Corporation ("RTC") document production in response to S. In US derivative cases, plaintiffs' lawyer fees and monetary awards have a distorting effect on shareholder value. We evaluate the benefits of corporate litigation without these externalities using a dataset for the Netherlands between 2002 and 2013. We find significant abnormal returns within a short timespan surrounding the filing and resolution of M&A-related lawsuits. Over longer horizons, we document that resolutions have little impact on shareholder value. Moreover, our findings suggest that longer waiting times for court resolutions are costly. The evidence from the Netherlands supports the view that, in settings without strong distortions, derivative style litigation may enhance firm value.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work.

However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

This edition of the Guide contains three major sections: the narrative text; a Resource Directory, which provides addresses and telephone numbers of organizations referenced in the text; and the Directory of Licensed and Permits, which lists all business licenses and permits required by the State of Minnesota, the state agency which issues or administers the license or permit, and a telephone number for obtaining more information. Topics presented in the narrative text are presented in the order in which the new business owner typically must address them."--Preface
