James W. Martin is a Florida Bar Board Certified Real Estate Lawyer and Adjunct Professor of Law at Stetson University College of Law who, for over forty years, has practiced Florida real estate, wills, trusts, probate, corporations, nonprofits, and business law. The author has seen too many corporations improperly formed and maintained. Some failed to issue stock; others failed to hold annual meetings and file annual reports; and others failed to maintain corporate records. Failure to comply with the basics of corporate law have resulted in real estate title problems, litigation, and potential personal liability. This book provides a step-by-step process with forms and checklists for forming and maintaining Florida business corporations to avoid these problems. It is primarily directed to lawyers because Florida corporations are legal entities created under the Florida Business Corporation Act, so having a law degree really should be a prerequisite to forming and maintaining corporations. However, the

---

author realizes that we live in an age where nonlawyers freely access these materials on the Internet, so he has written this book in plain language that does not require a law degree to understand. But his message for nonlawyers reading this book is to be sure to engage a Florida-licensed lawyer on their behalf to review any document before it is signed or filed.

In an environment of increased interdependency and collaborations among non-profits, for-profits, and governmental organizations, researchers and practitioners have begun to identify the need for a distinctive set of values, skills, and competencies for effective non-profit management. Underlining the relationship between these two sectors, *Effective Non-Profit Management: Context, Concepts, and Competencies* clarifies the emerging links between the public and non-profit sectors at the local, national, and global levels. Each chapter concludes with a discussion of a recent issue and a case study. They include discussion questions, a listing of Web resources, and a review of

terms at the end of each chapter. The introductory chapter discusses non-profit organizations, their phenomenal growth, the different categories of non-profits, and the scope and significance of this sector. The second chapter focuses on explaining the linkages among non-profits, for-profits, and government organizations. The next couple of chapters provide a detailed discussion of essential non-profit law, non-profit governance, human resource management, resource acquisition and management, marketing, technology, nongovernmental organizations (NGOs), and effectiveness. Discussing four major developments in the non-profit environment that have implications for the future of this sector, the book: Covers all major topics in non-profit management including recent issues that affect such management Provides up-to-date information on emerging issues in non-profit management, including transparency, technology, legal, and other socio-political issues Includes input from an advisory group of leading non-profit executives Details best practices, practical tips and examples, and lists of Internet resources Going beyond the usual coverage of government contracting with non-profits, the book provides a focused discussion on the linkages between public administration and the non-profit sector. In an approach that balances theory and application, the book is a guide to the practical art of forming, managing, and leading non-profit organizations.
