Mars G. Fontana, a
world-renowned

educator and corrosion engineer, died February 29, 1988. He was one of the world's pioneers in research establishing basic scientific knowledge in the phenomenon of corrosion and its applications in engineering.

Corrosion engineering is the specialist discipline that requires application of scientific, technical and engineering knowledge along with natural laws and physical resources in

order to design and implement materials, structures, devices, systems and procedures to manage the natural phenomenon known as corrosion.
