The Routledge Handbook of the Philosophy of Sport is a landmark publication in sport studies. It goes further than any book has before in tracing the contours of the discipline of the philosophy of sport and in surveying the core themes, approaches and theories that form its disciplinary fabric. The book explores the ways in which an understanding of philosophy can inform our understanding of important prevailing issues in sport. Edited by two of the most significant figures in the development of the philosophy of sport, Mike McNamee and Bill Morgan, and with contributions from many of the world's leading sport philosophers, this is an invaluable companion reference volume for any course in the social scientific study of sport, and an essential addition to the bookshelf of any serious scholar of the philosophy and/or ethics of sport.

The Prime Time Closet Raintree

#1 New York Times bestselling author Sherrilyn Kenyon returns with *Shadow Fallen*, a brand-new entry in her Dream-Hunter series. For centuries, Ariel has fought the forces of evil. Her task was to protect the souls of innocent mortals when they die. Captured by a powerful sorceress, she is transformed into a human who has no memory of her real life or calling. And is plunked into the middle of the Norman invasion of England. Cursed the moment he was born with a "demonic deformity," Valteri wants nothing of this earth

except to depart it and will do his duty to his king until then. When a strange noblewoman is brought before him, Valteri realizes he has met her before...in his dreams. When others come for her, bringing with them preternatural predators, he is faced with a destiny he had no idea was waiting. One he wants no part of. The truth is that Valteri isn't just a knight of William the Conqueror. He is the son of one of the deadliest powers in existence, and if he doesn't restore Ariel to her place, she is not the only one who will be in peril. The world itself hangs in the balance, and he is the necessary key to hold back the powers of evil. But only if he can find a way to work with the woman who stands for everything in the universe he hates. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Shadow Fallen Simon and Schuster

Describes ethical dimensions of international relations from ancient times to the modern world, examining such issues as war and peace, different economic levels, the environment, human rights, and cultural and religious conflicts.

Infamous Oliver-Heber books

Following his son's kidnapping and subsequent rescue, Nick Hunter proceeds to track down and eliminate every person involved in the crimes against his family. But where will the chase end? And has he bitten off more than he can chew? Hunter discovers a tangled net of human trafficking and corruption, and world-class players with a penchant for disturbed obsessions.

Born of Fire Paper Gold Publishing

New York Times Notable Book: "An exceptional, assured debut [that] captures the zeitgeist of confused adolescents and a sick culture post-Columbine."—Hartford Courant A national bestseller that inspired a major motion picture, this chilling novel follows prep school dropout White Mike through the week between Christmas and New Year's 1999, as he deals an alluring new drug to his privileged peers on Manhattan's Upper East Side. The kids of Twelve have it all; Chris and Claude and Hunter and Laura have the best, and most, of everything, but are constantly looking for something more exotic,

and more dangerous. But Twelve is not a coming-of-age story, because these kids never had a childhood—their parents are off on holiday in Bali or business in Brussels, leaving hired help to look the other way as the kids stay home alone in their multimillion-dollar town houses, partying, surrounded by drugs and sex—and, in the end, much worse. "Renders Manhattan's cosseted Upper East Side with both the casual authority of an insider and the wry distance of an observer...impressive."—Jennifer Egan, *The New York Times* Book Review "Riveting in its no-holds-barred depiction of teenage nihilism."—Jon Land, *Providence Journal*

Dawn of the Hunter St. Martin's Paperbacks

Introduces the problem of terrorism, looking at some of its causes, how to effectively protect people from it, and how some security measures can infringe on personal liberty and privacy.

The Anatomy of Fraud and Corruption CRC Press

In a universe where assassins make the law, everyone lives in fear—except for Syn. Born of an illicit scandal that once rocked a dynasty, he always knew how to survive on the bloodthirsty streets. But that was then, and the future is now... Syn was raised as a tech-thief until his livelihood uncovered a truth that could end his life. He tried to destroy the evidence, and has been on the run ever since. Now trained as an assassin, he allows no one to threaten him. Ever. He is the darkness that swallows his enemies whole. Shahara Dagan is the best bounty hunter in the universe. When Syn comes back on the radar, she's the only one who can bring him to justice. There's only one problem: Syn is a close family friend who's helped out the Dagans countless times. But if she saves him, both of their lives will be on the line. Is Syn's protection worth the risk? The only hope Shahara has is to find the evidence he buried long ago. Now it's kill or be killed—and they, the predators, have just become the hunted... *Born of Fire* is the second book in bestselling author Sherrilyn Kenyon's League series.

This is a supplement to the author's Encyclopedia of Television Shows, 1925-2010. It covers 1,612 series broadcast between January 1, 2011, and

December 31, 2016. Major networks--ABC, CBS, the CW, Fox and NBC--are covered along with many cable channels, such as AMC, Disney, Nickelodeon, Bravo, Lifetime, Discovery, TNT, Comedy Central and History Channel. Alphabetical entries provide storylines, casts, networks and running dates. A performer index is included.

Gnomon Tor Books

Discusses the history of money in sports, how professional athletes have come to earn sizeable salaries, and the role of advertising.

A Million Tears St. Martin's Griffin

The explosive New York Times bestseller by Stephen Hunter that sends ex-Marine sniper Bob Lee Swagger into the thick of an FBI investigation and features some of the greatest gunfights ever to grace the page. It takes a seasoned killer... Four famed '60s radicals are gunned down at long range by a sniper. All the evidence—timeline, ballistics, forensics, motive, means, and opportunity—points to Marine war hero Carl Hitchcock. Even his suicide. The case is almost too perfect. ...to hunt one. Recruited by the FBI to examine the data, retired Marine sharpshooter Bob Lee Swagger penetrates the new technology of the secretive sniper world to unravel a sophisticated conspiracy run by his most ruthless adversary yet—a marksman whose keen intellect and pinpoint accuracy rival his own. But when the enemy and his deadly henchmen mistake Bob for the hunted, it's clear that some situations call for a good man with a gun...and the guts to use it.

Born of Night Routledge

Antifragile is a standalone book in Nassim Nicholas Taleb's landmark Incerto series, an investigation of opacity, luck, uncertainty, probability, human error, risk, and decision-making in a world we don't understand. The other books in the series are Fooled by Randomness, The Black Swan, Skin in the Game, and The Bed of Procrustes. Nassim Nicholas Taleb, the bestselling author of The Black Swan and one of the foremost thinkers of our time, reveals how to thrive in an uncertain world. Just as human bones get stronger when subjected to stress and tension, and rumors or riots intensify when someone tries to repress them, many things in life benefit from stress, disorder, volatility, and turmoil. What Taleb has identified and calls "antifragile" is that category of things that not only gain from chaos but need it in order to survive and flourish. In The Black Swan, Taleb showed us that highly improbable and unpredictable events underlie almost everything about our world. In Antifragile, Taleb stands uncertainty on its head, making it desirable, even necessary, and proposes that things be built in an antifragile manner. The antifragile is beyond the resilient or robust. The resilient resists shocks and stays the same; the antifragile gets better and better. Furthermore, the antifragile is immune to prediction errors and protected from adverse events. Why is the city-state better than the

nation-state, why is debt bad for you, and why is what we call "efficient" not efficient at all? Why do government responses and social policies protect the strong and hurt the weak? Why should you write your resignation letter before even starting on the job? How did the sinking of the Titanic save lives? The book spans innovation by trial and error, life decisions, politics, urban planning, war, personal finance, economic systems, and medicine. And throughout, in addition to the street wisdom of Fat Tony of Brooklyn, the voices and recipes of ancient wisdom, from Roman, Greek, Semitic, and medieval sources, are loud and clear. Antifragile is a blueprint for living in a Black Swan world. Erudite, witty, and iconoclastic, Taleb's message is revolutionary: The antifragile, and only the antifragile, will make it. Praise for Antifragile "Ambitious and thought-provoking . . . highly entertaining."—The Economist "A bold book explaining how and why we should embrace uncertainty, randomness, and error . . . It may just change our lives."—Newsweek

Born of Silence Gareth Stevens Publishing LLLP

A Best Science Fiction Book of 2017 -- The Guardian From the widely acclaimed author of The Gone-Away World and Tigerman, comes a virtuosic new novel set in a near-future, high-tech surveillance state, that is equal parts dark comedy, gripping detective story, and mind-bending philosophical puzzle. In the world of Gnomon, citizens are constantly observed and democracy has reached a pinnacle of 'transparency.' Every action is seen, every word is recorded, and the System has access to its citizens' thoughts and memories--all in the name of providing the safest society in history. When suspected dissident Diana Hunter dies in government custody, it marks the first time a citizen has been killed during an interrogation. The System doesn't make mistakes, but something isn't right about the circumstances surrounding Hunter's death. Mielikki Neith, a trusted state inspector and a true believer in the System, is assigned to find out what went wrong. Immersing herself in neural recordings of the interrogation, what she finds isn't Hunter but rather a panorama of characters within Hunter's psyche: a lovelorn financier in Athens who has a mystical experience with a shark; a brilliant alchemist in ancient Carthage confronting the unexpected outcome of her invention; an expat Ethiopian painter in London designing a controversial new video game, and a sociopathic disembodied intelligence from the distant future. Embedded in the memories of these impossible lives lies a code which Neith must decipher to find out what Hunter is hiding. In the static between these stories,

Neith begins to catch glimpses of the real Diana Hunter--and, alarmingly, of herself. The staggering consequences of what she finds will reverberate throughout the world. A dazzling, panoramic achievement, and Nick Harkaway's most brilliant work to date, Gnomon is peerless and profound, captivating and irreverent, as it pierces through strata of reality and consciousness, and illuminates how to set a mind free. It is a truly accomplished novel from a mind possessing a matchless wit infused with a deep humanity.

Worth Any Price Capstone

(Applause Books). Television history was made on April 30, 1997, when comedian Ellen DeGeneres and her sitcom alter-ego Ellen Morgan, "came out" to her close friends and 36 million viewers. This groundbreaking episode represented a significant milestone in American television. For the first time, a TV series centered around a lesbian character who was portrayed by an openly gay actor. The millions of viewers who tuned in that historic night were witnesses to a new era in television. The Prime Time Closet offers an entertaining and in-depth glimpse into homosexuality on television from the 1950s through today. Divided into four sections, each devoted to a major television genre, this unique book explores how gay men and lesbians have been depicted in over three hundred television episodes and made-for-TV films. These include medical series, police/detective shows, situation comedies and TV dramas. The Prime Time Closet also reveals how television's treatment of homosexuality has reflected and reinforced society's ignorance about and fear of gay men and lesbians. At the same time, it celebrates programs like Ellen and Will & Grace that have broken new ground in their sensitive and enlightened approach to homosexuality and gay-related themes. This book is witty and insightful, accessible and illuminating, a look into what has become an integral part of American media culture.

A dictionary of English and Welsh surnames Gareth Stevens Publishing LLLP

The second most infamous member of the shadow organisation called Sentella, Kere, an explosives engineer, is known for striking terror in the hearts of all enemies. The bounty on his head is truly staggering, and no one outside the Sentella knows his real identity. Zarya Starska grew up hard on the back streets of hell. Labeled a traitor because of her father's political beliefs, she dreams of a different life and a different world. A world where the harsh hand of the Caronese government doesn't destroy the lives of its citizens. As a resistance leader, her goal is to topple to government that took her father's life, along with her mysterious right-hand man, known only as Kere. But Kere has a dark secret. He's out for revenge for past crimes against his family, and plans to annihilate all those he feels guilty, along with every resistance member he can find ...including Zarya.

Infinity Capstone

The Commonwealth Games are a thrilling festival of sport, bringing together athletes from around the world. Held every four years, they celebrate the best that the Commonwealth has to offer. But how did they get their start, and how are they organized? Who have been the star performers, and what can we expect at the 2014 Games in Glasgow? Read this book to find out all about the Commonwealth Games.

Routledge Handbook of the Philosophy of Sport St. Martin's Griffin
Command Assassin Nykyrian Quiakides tries to protect Kiara Zamir, whose father's political alliances have made her a target, while he is hunted by the League, a group of expert assassins who are the backbone of the government.

Born of Ice St. Martin's Press

The heartrending story of the Griffiths family, whose devotion allows them to succeed where others fail. Fleeing the hardship and poverty of Wales in 1890, they embrace the optimism and opportunities of America.

Shepherd's Fall Rowman & Littlefield

Our impressions of the War in Afghanistan usually consist of images we see on TV of soldiers, tanks, and debris. We hear numbers: of people dying, damaged buildings, and dates promising an end to the violence. However, in every war-torn country, there are ordinary people trying to live as normally as possible and survive amidst the danger, sadness, and chaos. Readers closely examine the war that has raged in Afghanistan since 2001—learning about the people on each side and the causes and consequences of the conflict. This account stands apart from other social studies texts with its inclusion of a fictional correspondence between two girls, one in Afghanistan and one in the United States. The captivating letters weaved throughout the nonfiction narrative bring to light the many commonalities between two young people who at first seem worlds apart.

Blood is Power: Hunter Book 2 St. Martin's Paperbacks

Through a cross-national lens Political Corruption and Democratic Governance explores political corruption and how it influences electoral politics, political trust, citizens' evaluations of democratic norms and values, economic development, and distributional justice in both developed and developing nations.
