This illustrated history chronicles electric and hybrid cars from the late 19th century to today ' s fuel cell and plug-in automobiles. It describes the politics, technology, marketing strategies, and environmental issues that have impacted electric and hybrid cars ' research and development. The important marketing shift from a " woman ' s car " to " going green " is discussed. Milestone projects and technologies such as early batteries, hydrogen and bio-mass fuel cells, the upsurge of hybrid vehicles, and the various regulations and market forces that have shaped the industry are also covered.

The Spectator life by states
manual Sterling Publishing
Company, Inc.

Six months after its American
introduction in 1985, the
Yugo was a punch line; within
a year, it was a staple of late-
night comedy. By 2000, NPR's
Car Talk declared it "the
worst car of the millennium."
And for most Americans that's
where the story begins and
ends. Hardly. The short,
unhappy life of the car, the
men who built it, the men who
imported it, and the decade
that embraced and discarded
it is rollicking and astounding,
and one of the greatest untold
business-cum-morality tales of
the 1980s. Mix one rabid
entrepreneur, several
thousand "good" communists,
a willing U.S. State

Department, the shortsighted
Detroit auto industry, and
improvident bankers, shake
vigorously, and you've got The
Yugo: The Rise and Fall of the
Worst Car in History.

Brilliantly re-creating the
amazing confluence of events
that produced the Yugo,
Yugoslav expert Jason Vuic
uproariously tells the story of
the car that became an
international joke: The
American CEO who happens
upon a Yugo right when his
company needs to find a new
import or go under. A State
Department eager to aid
Yugoslavia's nonaligned
communist government.
Zastava Automobiles, which
overhauls its factory to produce
an American-ready Yugo in six
months. And a hole left by
Detroit in the cheap
subcompact market that
creates a race to the bottom
that leaves the Yugo . . . at the
bottom.

Diesel 04-12 Ashgate Publishing, Ltd. Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-

yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car

repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Lifemobile tells the story of Benjy Bennett, an honor student with Asperger ' s Syndrome, who upon graduation from high school hopelessly despairs that " there ' s no place in this world " for someone as different as him. But then

his widowed father brings home a " Deathmobile " – an old Corvair, famously characterized by Ralph Nader as " unsafe at any speed. " When Benjy learns that the U.S. government ultimately found Nader's sensational charges untrue, he decides that the Corvair is " not disabled, just different, " as he is, and has been unfairly stigmatized by a world that does not understand it, just as he has. The different boy becomes the different car's champion, determined to prove to the world how wrong it is about both of them. Taking Benjy and his father on a wild and emotional ride full of colorful characters and comic adventures, the Deathmobile becomes their " Lifemobile, " ultimately helping them both discover Benjy ' s own uniquely

satisfying place in this world.
