This is a mind-boggling book. For the enthusiast intent upon restoring his Corvette to the look and condition it enjoyed when it left the factory, it is absolutely essential. For the enthusiast desiring to learn everything - every detail, every nuance which made one Corvette different from another, at model-year changeover, at mid-model, early model-year production, late model-year production - it is the ultimate reference book. This is the history of what happened to the Corvette on the assembly line from 1953 to 1962. It is the story of every Corvette that was produced for a decade. Its engine. Its

chassis. Its body. From Powerglide to Positraction to Power Team Combinations. From ignition shielding to hose clamps to identification labels. From windshield wipers to door latch controls to taillight assemblies. It's a bit like a mystery book too, and could almost be recommended to aficionados of that genre regardless of their interest in Corvettes or even cars for that matter. To write this book Noland Adams had to become something of a Sherlock Holmes.

" Few authorities in the hobby could be counted on to provide this much entertainment in a single volume. Discover Kevin Mackay's stories of finding and restoring valuable Corvettes, including the 1960 Briggs Cunningham Le Mans racer that took first in class, Steve McQueen's 1966 Corvette, the 1967 Bounty Hunter racer, the 1968 Sunray DX #2 and #3, and chassis #003 from 1953. It's hard to imagine that a car with the racing pedigree of the Rebel Corvette could be neglected to the point of it being lost. Winning the GT class at the 1972 12 Hours of Sebring wasn't enough to keep this car from becoming just another old wreck out behind the shed. It was many years before Kevin Mackay came to rescue this prominent machine. If you like L88 Corvettes, no one has bought and restored more of them than Kevin Mackay! Finding, documenting, restoring, and selling rare and valuable Corvettes is one of Mackay's specialties. His business, Corvette Repair Inc., is considered the premier Corvette restoration facility in the country. "
