Since 1958 the Maritime Administration has continuously

conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was

---

needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Most rational people don't pay \$40 for \$20 items. And yet with wine, it happens all the time. Wine can be an expensive hobby. Founder of the popular site ReverseWineSnob.com, Jon Thorsen is an unapologetic frugal wine consumer. He flips wine snobbery on its head by pushing a \$20 or less mantra. Reverse Wine Snob is

---

designed to help wine drinkers stop wasting money and get the most satisfaction out of their drinking dollars. It reveals Thorsen's Ten Tenets of Reverse Wine Snobbery—ten beliefs that eliminate myths about wine—as well as a unique rating system that includes the cost of the bottle so that there is satisfaction in both taste and price. In Jon's unique system, the more expensive a wine, the better it must taste.

Reverse Wine Snob explains: The number one rule all wine drinkers should follow, no matter what the wine snobs say. How to shop for wine at stores like the nation's #1 wine retailer Costco and Trader Joe's. The regions and varieties of wine that give the best value. Why the price of a wine has nothing to do with its taste. Why the distribution system in the US is broken which costs you money and limits your wine choices.

Tons of Jon's very favorite wine picks. Jon dapples in every kind of wine from \$10 kitchen sink blends to the \$20 "Saturday Night Splurge," so delicious it's worth twice the price. Reverse Wine Snob brings plain old common sense to the wine industry and encourages wine lovers to explore the world of inexpensive quality wine.
