My life after death Harper Collins

Warning: Some People Hate This Book! Who hates Undoing? Stuffed-shirt academicians, do-nothing pushers of cosmic foo-foo, and would-be slave-owners everywhere. On the other hand, if you are interested in actually accomplishing something, you will love it. Within these pages

you will find innumerable practical techniques to transform your life, served up with a large dose of humour and the stick of the Zen Roshi. This edition contains 64 pages of new material! Sword & Citadel New World Library

Meet "Bob." Lord of the SubGenius. Scientific Shaman. Big Brother Au-Go-Go. He sits comfortably at the apex of the pyramid of worldly knowledge, twiddling his thumbs. His word, according to followers, is The Word, and that word is Slack. Beyond science, reason — and orgasm — find in Bobliography instant instructions for those who follow no master. The third installment of the holy SubGenius books, Bobliography is an uproarious send-up of all things cult. In addition to providing a guide for Eternal Salvation (or triple your money back), Bobliography is the encapsulated history of the SubGenius "movement" — from its beginnings in the 1980s to the growing Internet empire it has lately

become — and also the essential, comprehensive collection of SubGenius lore. A Whole Earth catalog for the Deeply Weird, a Farmer's Almanac for the Truly Strange — Bibliography is the revelation of the millennium.

Final secret of the illuminati Cosmic Trigger I The great modern classic of a brilliant rebel's personal exploration into the nature of consciousness
Featuring a New Introduction by John Higgs "Cosmic Trigger deals with a process of deliberately induced brain change. This process is called "initiation" or "vision quest" in many traditional societies and can loosely be considered some dangerous variety of self-psychotherapy in modern terminology. I do not recommend it for everybody . . . briefly, the main thing I learned in my experiments is that "reality" is always plural and mutable." - Robert Anton Wilson from the Preface The Robert Anton Wilson Trust Authorized Hilaritas Press Edition Cosmic Trigger Cosmic Trigger III Discusses consciousness, the nature of God, sexuality, human knowledge, robots, and the future.

The Earth Will Shake Penguin

Before the X-Files, before alt.conspiracy, there was Robert Anton Wilson and his legendary Illuminatus! Trilogy. Now this avatar of conspiriology, renowned for his razor wit and progressive philosophy, takes you on a fascinating, eclectic ride through what Wilson has termed the "Cultic Twilight" where conspiracy theories flourish. Everything Is Under Control covers the range of Wilson's kaleidoscopic knowledge, from John Adams to the Voronezh (former Soviet Union) UFO sighting, the Campus Crusade for Cthulhu to the Mothman prophecies, and everything in between. What do the Freemasons, the Kennedys, and Princess Diana have in common? All are at the center of gigantic conspiracy theories with incredibly complex and endlessly multiplying twists, turns, highways and byways. Arranged by alphabetical entries which include cross-references to other entries in the book and also provide addresses to related sites on the Web, this

book is truly interactive--you can dip in, read through, or follow one of the URLs from an interesting entry onto the internet. What some famous people say about Robert Anton Wilson: "A dazzling barker hawking tickets to the most thrilling tilt-a-whirls and daring loop-o-planes on the midway to higher consciousness." --Tom Robbins "Wilson managed to reverse every mental polarity in me, as if I had been pulled through infinity." --Philip K. Dick "One of the most important scientific philosophers of his century--scholarly, witty, scientific, hip and hopeful." --Dr. Timothy Leary

Philosophy for Life and Other Dangerous Situations Dell

A Major work of twentieth-century American Literature.

Prometheus Rising HarperCollins

An exploration of the emergence of a new psychedelic spirituality in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson. A study of the spiritual provocations to be found in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson, *High Weirdness* charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s. These three authors changed the way millions of readers thought, dreamed, and experienced reality—but how did their writings reflect, as well as shape, the seismic cultural shifts taking place in America? In *High Weirdness*, Erik Davis—America's leading scholar of high strangeness—examines the published and unpublished writings of these vital, iconoclastic thinkers, as well as their own life-changing mystical experiences. Davis explores the complex lattice of the strange that flowed through America's West Coast at a time of radical technological, political, and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality.

Illuminatus! Ronin Publishing

While this, the second volume of the Cosmic Trigger series, continues along the path set by the original "Cosmic Trigger I", it also stands solidly on its own. Any reader with an open mind and a sense of

humour cannot help but be entertained and enlightened while following Wilson's explorations into such subjects as the future of cyberspace; the peculiarities of Irish jurisprudence; links among the Mafia, the CIA and the Catholic Church; anal-eroticism in The White House; the Dog Castrator of Palm Springs; and many more observations from his infinitely fertile brain.

The Game of Life Macmillan

An “infuriating, fast-paced” (The Washington Post) account of the Navy SEALs of Alpha platoon, the startling accusations against their chief, Eddie Gallagher, and the courtroom battle that exposed the dark underbelly of America’s special forces—from a Pulitzer Prize–winning reporter WINNER OF THE COLORADO BOOK AWARD • “Nearly impossible to put down.”—Jon Krakauer, New York Times bestselling author of Where Men Win Glory and Into the Wild In this “brilliantly written” (The New York Times Book Review) and startling account, Pulitzer Prize–winning New York Times correspondent David Philipps reveals a powerful moral crucible, one that would define the American military during the years of combat that became known as “the forever war.” When the Navy SEALs of Alpha platoon returned from their 2017 deployment to Iraq, a group of them reported their chief, Eddie Gallagher, for war crimes, alleging that he’d stabbed a prisoner in cold blood and taken lethal sniper shots at unarmed civilians. The story of Alpha’s war, both in Iraq and in the shocking trial that followed the men’s accusations, would complicate the SEALs’ post-9/11 hero narrative, turning brothers-in-arms against one another and bringing into stark relief the choice that elite soldiers face between loyalty to their unit and to their country. One of the great stories written about American special forces, Alpha is by turns a battlefield drama, a courtroom thriller, and a compelling examination of how soldiers define themselves and live with the decisions in the heat of combat.

The Widow's Son Crown

Is all of history a vast conspiracy? Cosmic joke? Robert Anton Wilson developed the story of the Illuminati, a conspiracy as old as time itself, as a vehicle to amuse and enlighten. His best-selling books, The Illuminati Trilogy and Cosmic Trigger, have delighted readers the world over and made the Illuminati conspiracy the perfect metaphor for our time. In the ILLUMINATI PAPERS, Robert Anton Wilson speaks through characters from his novels and other realities and presents his views on our future way of life. Includes The HEAD Revolution Secrets of Evolution How to Eliminate Stupidity Illuminati Interoffice Memos The Position Papers of Hagbard Celine Economic Liberation The Usual Gang of Lunatics, Mystics, and Characters Clamoring for a New Social Order

The Illuminati Papers Sphere

This American underground classic is a rollicking cosmic mystery featuring Albert Einstein and James Joyce as the ultimate space/time detectives. One fateful evening in a suitably dark, beer-soaked Swiss rathskeller, a wild and obscure Irishman named James Joyce would become the drinking partner of an unknown physics professor called Albert Einstein. And on that same momentous night, Sir John Babcock, a terror-stricken young Englishman, would rush through the tavern door bringing a mystery that only the two most brilliant minds of the century could solve . . . or perhaps bringing only a figment of his imagination born of the paranoia of our times. An outrageous, raunchy ride through the twists and turns of mind and space, Masks of the Illuminati runs amok with all our fondest conspiracy theories to show us the truth behind the laughter . . . and the laughter in the truth. Praise for Masks of the Illuminati “I was

astonished and delighted . . . Robert Anton Wilson managed to reverse every mental polarity in me, as if I had been pulled through infinity.”—Philip K. Dick “[Wilson is] erudite, witty, and genuinely scary.”—Publishers Weekly “A dazzling barker hawking tickets to the most thrilling tilt-a-whirls and daring loop-o-planes on the midway to a higher consciousness.”—Tom Robbins “Wilson is one of the most profound, important, scientific philosophers of this century—scholarly, witty, hip, and hopeful.”—Timothy Leary
How to Change Your Mind Penguin

Throughout history, secret societies have played a crucial role in shaping events that have created our world. Only an inner circle of power elite know the full extent of the influence of the conspiracy. It is Paris, 1772, and Sigismundo Celine knows he is destined to play an important part in this history-behind-history. The masons, the English nobility, the Jacobites, the Rosicrucians, the ruling clique of pre-Revolution France: these are but a few of the factions involved in the machinations and intrigue in which Sigismundo has become enmeshed. Thrown into the Bastille, shot at, assaulted by assassins, tortured, and brutally interrogated, he knows only what he is and what he must do to become the one spoken of in the old texts. But what he doesn't know could kill him: the secret powers of Maria, the Italian beauty who has become an English Lady; the Irish fisherman, Moon, who stumbles across the inner workings of an unsuspected cult; and the question they keep asking: the identity of The Widow's Son.
Down to earth MIT Press

This, the long-awaited third volume of the Cosmic Trigger series, includes Wilson's witty and humorous observations about the widely spread (and,

happily, premature) announcement of his demise. And, of course, what Wilson masterpiece would be complete without synchronicities, religious fanatics, UFOs, crop circles, paranoia, pompous scientists, secret societies, high tech, black magic, quantum physics, hoaxes (real and fake), Orson Welles, James Joyce, Carl Sagan, Madonna and The Vagina of Nuit.
Historia Discordia Lulu.com

“[Le Carré's] novels are so brilliant because they're emotionally and psychologically absolutely true, but of course they're novels.” —New York Times Book Review
A thrilling tale for our times from the undisputed master of the spy genre Nat, a 47 year-old veteran of Britain's Secret Intelligence Service, believes his years as an agent runner are over. He is back in London with his wife, the long-suffering Prue. But with the growing threat from Moscow Centre, the office has one more job for him. Nat is to take over The Haven, a defunct substation of London General with a rag-tag band of spies. The only bright light on the team is young Florence, who has her eye on Russia Department and a Ukrainian oligarch with a finger in the Russia pie. Nat is not only a spy, he is a passionate badminton player. His regular Monday evening opponent is half his age: the introspective and solitary Ed. Ed hates Brexit, hates Trump and hates his job at some soulless media agency. And it is Ed, of all unlikely people, who will take Prue, Florence and Nat himself down the path of political anger that will ensnare them all. Agent Running in the Field is a chilling portrait of our time, now heartbreaking, now darkly humorous, told to us with unflagging tension by the greatest chronicler of our age.

Quantum Psychology Rvp Press

In the course of tracking down his uncle's murderers, a young Neapolitan composer becomes caught up in the power struggles of the secret societies, including the Rossos, Freemasons, Rosicrucians, Mafia, and Jesuits, of prerevolutionary eighteenth-century Europe.

Prometheus Rising describes the landscape of human evolution and offers the reader an opportunity to become a conscious participant. In an astoundingly useful road map infused with humor and startling insight, Robert Anton Wilson presents the Eight Circuits of the Brain model as an essential guide for the effort to break free of imprinted and programmed behavior, Bob writes, "We are all giants, raised by pygmies, who have learned to walk with a perpetual mental crouch. Unleashing our full stature-our total brain power-is what this book is all about." The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

The Dark Forest Roc

Aleister Crowley's *The Book of Lies* is an important and complex work of occultism. Deciphering its many layers of hidden meaning requires a little patience and more than a beginner's knowledge of Thelema. For those interested in passing beyond the initiate stage, the reward offered by a deeper understanding of this challenging text is well worth the effort. This new 2018 edition of *The Book of Lies* from Kismet Publishing restores all of Crowley's original text, including the

important keys, sigils and diagrams often omitted from reprints.

Right where You are Sitting Now Penguin

We know who we are. We are the dispossessed, the outcasts, and the outsiders, rebels with a cause who have upturned the mulch of our dead lives and seeded those fertile fields with incendiary visions of our future selves. Having already subverted the norm, we renounce dominator culture's status quo of everything and drift happy disconnected--babes in the abyss--wavering in the ambiguity fog of dislocation. Free-floating between old worlds and the new, guided only by the shining paths of mother evolution. We have passed over, we have passed the point of no-return and since there is no turning back, we celebrate the momentum lifting us on the wings of perception, grace, and whatever skills we have earned from surviving the inevitable catastrophe of self. Only when we are over, does our real life begin. (from Section 2: Praxis, Week Six: Chapel Perilous) The Eight-Circuit Brain advances and expands the material in Alli's groundbreaking book, *Angel Tech*, a compendium of techniques and practical applications based on Dr. Timothy Leary's 8-Circuit Brain model. After more than twenty years of research and experimentation, Antero's earlier findings are significantly updated and enriched in this new body of work. It includes a comprehensive 8-week course of study and practice, the author's "Neurological Autobiography of Outside Shocks and Hedonic Upgrades," Forum interactions with students from his Eight-Circuit course, stories from his encounters with Christopher S. Hyatt and Robert Anton Wilson, and much, much more. Extensively Illustrated.

joy, we can do our best to be fully present and find meaning in our lives.

“Pollan keeps you turning the pages . . . cleareyed and assured.” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and
