I was diverted to translating Ferdynand, Witold

Gombrowicz 's ground-breaking first novel. Now I have come back to *Cosmos*, for which Gombrowicz won the Editor ' s International Prize for Literature, second in importance only to the Nobel Prize, in 1967. This is the first translation of *Cosmos* directly from the Polish.

Witold Marian Gombrowicz (August 4, 1904 – July 24, 1969) was a Polish writer and playwright. His works are characterised by deep psychological analysis, a certain sense of paradox and absurd, anti-nationalist flavor. Because he was a leftist, bisexual, and anticlerical who defied all party lines, his books were banned in communist Poland.

A dark, quasi-detective
novel, Cosmos follows
the classic noir motif to

explore the arbitrariness of language, the joke of human freedom, and man ' s attempt to bring order out of chaos in his psychological life. Published in 1965, Cosmos is the last novel by Witold Gombrowicz (1904 – 1969) and his most somber and multifaceted work. Witold Gombrowicz - Wikipedia
Here are two major works by the famed Polish novelist and dramatist Witold Gombrowicz. The first,

Cosmos, a metaphysical thriller, revolves around an absurd investigation. It is set in provincial Poland and narrated by a seedy, pathetic, and witty student, who is charming and appalling by turns, and whose voice is dense with the richly palpable description that characterizes Gombrowicz's writing.
