This supplement provides computerized cases for all major cost accounting topics.

Students are asked to define the unique business problem described in the case, use the applied templates to

analyze data related to alternative courses of action, and then make a decision or discuss the implications of the results. An initial exercise illustrates the basics of using a microcomputer and Excel. Optional tutorials are also available for those who want to add to, or make more effective use of the templates. A

Solutions Manual provides the case objective, an overview of the case, a description of the accompanying template, a list of potential student analysis, and a discussion guide
