Cost Accounting Prentice Hall The Arab World Edition of this popular text from world famous author Charles T. Horngren has been especially created to motivate and engage students of cost accounting from across the Arab World. While there are many cost accounting textbooks available on the market, none have been developed with such a strong focus on preparing students for an accounting career in both the Arab World and globally. This new text sets out to

provide cost accounting students with the practical skills and theoretical knowledge students need to thrive in both their academic study and future careers. Drawing on many locally sourced examples and case studies, this text gives students an essential global perspective on cost accounting, all the while making core concepts relevant to students' own experiences. Cost Accounting; a Managerial Emphasis This supplement provides computerized cases for all major cost accounting topics. Students are asked to define the unique business problem described in the case, use the

applied templates to analyze data related to alternative courses of action, and then make a decision or discuss the implications of the results. An initial exercise illustrates the basics of using a microcomputer and Excel. Optional tutorials are also available for those who want to add to, improve on, or make more effective use of the templates. A Solutions Manual provides the case objective, an overview of the case, a description of the accompanying template, a list of potential student analysis, and a discussion guide
