Cost Accounting Macmillan College

No prior accounting or business knowledge is needed to successfully complete this book. Accounting 4/E pays very careful attention to making accounting information interesting and relevant to the reader. A number of infographics, worked-out examples, charts, and illustrations visually reinforce material. The book provides insight and step-by-step instructions on how business decision makers use financial statements and other forms of accounting information. It illustrates how to navigate through accounting resources on the web. Emphasizes topics in depth while incorporating new real company examples. For those working within accounting or considering accounting/business profession or even those owning a small business.

Cost Accounting Prentice Hall

The Arab World Edition of this popular text from world famous author Charles T. Horngrén has been especially created to motivate and engage students of cost accounting from across the Arab World. While there are many cost accounting textbooks available on the market, none have been developed with such a strong focus on preparing students for an accounting career in both the Arab World and globally. This new text sets out to provide cost accounting students with the practical skills and theoretical knowledge students need to thrive in both their academic study and future careers. Drawing on many locally sourced examples and case studies, this text gives students an essential global perspective on cost accounting, all the while making core concepts relevant to students' own experiences.

Cost Accounting Prentice Hall

For undergraduate and MBA students taking a Cost or Management Accounting course. Emphasizing the "different costs for different purposes," this text focuses on strategy and the decision making process. With a tradition of being the market leading text and professional standard, the new edition has deepened its strategic focus and emphasis, and invested in market breaking MyAccountingLab tutorial support.

Cost Accounting

This supplement provides computerized cases for all major cost accounting topics. Students are asked to define the unique business problem described in the case, use the applied templates to analyze data related to alternative courses of action, and then make a decision or discuss the implications of the results. An initial exercise illustrates the basics of using a microcomputer and Excel. Optional tutorials are also available for those who want to add to, improve on, or make more effective use of the templates. A Solutions Manual provides the case objective, an overview of the case, a description of the accompanying template, a list of potential student analysis, and a discussion guide
