Accounting for Organizational Control

John Wiley & Sons

One of the most important challenges that people in senior management positions face is the responsibility of ensuring their organizations' effective practice of performance management. As this book reveals, performance management comprises an interdisciplinary field of study and practice that draws upon a wide set of business disciplines, including strategic management, organizational behaviour, organizational theory, and management accounting. This book provides a contemporary examination of theories, issues, and practices related to performance management. An original performance management framework helps structure the book, and in particular the ordering and layout of the book's chapters. Unlike other performance management frameworks, the one used here is grounded in concrete organizational phenomena, therefore making it more accessible and meaningful to practitioners, scholars, and students.

Cost Accounting: A Managerial Emphasis 12Th Ed. Cost Accounting A Managerial Emphasis Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years' academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail.

The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two point of views: (1) a General Management view, with aspects of business planning, cost-volume-profit analysis, degree of operating leverage, mergers and cross-border acquisitions and risk valuation. (2) a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting (job order and process costing), activity based costing and multi-level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.
