Information

M.Sc. in Forensic Sciences is a 2-year full-time post-graduate course which is divided into 4 semesters. Forensics is a method used to determine what happened before, during, and after a crime. Students can choose to focus on one area of forensics, such as Biology or Cyber Security, relevant to the sort of criminal activity to detect.

Courses - University of South Alabama

The master's degree in forensic science is a two- or three-year degree. Students who are taking full-time courses take two to three per academic semester or quarter. To qualify for a spot in one of these programs, students must have a bachelor's degree and, oftentimes, some experience in forensics or law enforcement.
