The Lion of the North

Grove/Atlantic, Inc.
How many of us have caught ourselves gazing into the eyes of a pet, wondering what thoughts lie behind those eyes? Or fallen into an argument over which is smarter, the dog or the cat? Scientists have conducted elaborate experiments trying to ascertain whether animals from chimps to pigeons can communicate, count, reason, or even lie. So does science tell us what we assume -- that animals are pretty much like us, only not as smart? Simply, no. Now, in this superb book, Stephen Budiansky poses the fundamental question: "What is intelligence?" His answer takes us on the ultimate wildlife adventure to animal

consciousness. Budiansky begins by exposing our tendency to see ourselves in animals. Our anthropomorphism allows us to perceive intelligence only in behavior that mimics our own. This prejudice, he argues, betrays a lack of imagination. Each species is so specialized that most of their abilities are simply not comparable. At the mercy of our anthropomorphic tendencies, we continue to puzzle over pointless issues like whether a wing or an arm is better, or whether night vision is better than day vision, rather than discovering the real world of a winged nighthawk, a thoroughbred horse, or an African lion. Budiansky investigates the sometimes bizarre research behind animal intelligence experiments: from horses who can count or ace history quizzes, and primates who seem fluent in sign language, to rats who seem to have become self-aware, he reveals that often these animals are responding to our tiny unconscious cues. And, while critically discussing scientists' interpretations of animal intelligence, he is able to lay out their discoveries in terms of what we know about ourselves. For instance, by putting you in the minds of dogs or bees who travel by dead reckoning, he demonstrates that this is also how you find your way down a familiar street with almost no conscious awareness of your navigation system. Modern cognitive science

and the new science of evolutionary ecology are beginning to show that thinking in animals is tremendously complex and wonderful in its variety. A pigeon's ability to find its way home from almost anywhere has little to do with comparative intelligence; rather it is due to the pigeon's very different perception of the world. That's why, as Wittgenstein said, "If a lion could talk, we would not understand him." In this fascinating book, Budiansky frees us from the shackles of our ideas about the natural world, and opens a window to the astounding worlds of the animals that surround us.

Thoroughly updated and expanded, this new edition of *Negotiating Arab-Israeli Peace* examines the history of recurrent efforts to resolve the Arab-Israeli conflict and identifies a pattern of negative

negotiating behaviors that seem to repeatedly derail efforts to achieve peace. In a lively and accessible style, Laura Zittrain Eisenberg and Neil Caplan examine eight case studies of recent Arab-Israeli diplomatic encounters, from the Egyptian-Israeli peace of 1979 to the beginning of the Obama administration, in light of the historical record. By measuring contemporary diplomatic episodes against the pattern of counterproductive negotiating habits, this book makes possible a coherent

comparison of over sixty years of Arab-Israeli negotiations and gives readers a framework with which to assess the relative strengths and weaknesses of peace-making attempts, past, present, and future. *Devotional Field Book* UPNE "A masterpiece of contemporary Bible translation and commentary."—Los Angeles Times Book Review, Best Books of 1999 Acclaimed for its masterful new translation and insightful commentary, *The David Story* is a fresh, vivid rendition of one of the great works in Western literature. Robert

Alter's brilliant translation gives us David, the beautiful, musical hero who slays Goliath and, through his struggles with Saul, advances to the kingship of Israel. But this David is also fully human: an ambitious, calculating man who navigates his life's course with a flawed moral vision. The consequences for him, his family, and his nation are tragic and bloody. Historical personage and full-blooded imagining, David is the creation of a literary artist comparable to the Shakespeare of the history plays.

Century of the Soldier

The Iron Covenant Book 1 No day is ordinary in a world where Technology and Magic compete for supremacy...But no matter which force is winning, in the apocalypse, a sword will always work. Hugh d'Ambray, Preceptor of the Iron Dogs, Warlord of the Builder of Towers, served only one man. Now his immortal, nearly omnipotent master has cast him aside. Hugh is a

shadow of the warrior he was, but when he learns that the Iron Dogs, soldiers who would follow him anywhere, are being hunted down and murdered, he must make a choice: to fade away or to be the leader he was born to be. Hugh knows he must carve a new place for himself and his people, but they have no money, no shelter, and no food, and the necromancers are coming. Fast. Elara Harper is a creature who should not exist. Her enemies call her Abomination; her people call her White Lady. Tasked with their protection, she's trapped between the magical heavyweights about to collide

and plunge the state of Kentucky into a war that humans have no power to stop. Desperate to shield her people and their simple way of life, she would accept help from the devil himself-and Hugh d'Ambray might qualify. Hugh needs a base, Elara needs soldiers. Both are infamous for betraying their allies, so how can they create a believable alliance to meet the challenge of their enemies? As the prophet says: "It is better to marry than to burn." Hugh and Elara may do both. *Killing Sin* Wm. B. Eerdmans Publishing "Day of War" is a gritty, intense, stylistic portrait of the

Mighty Men of Israel--a rag-tag band of disgruntled warriors on the run with David, the soon-to-be king, whose legendary deeds are recorded in 2 Samuel 23 and 1 Chronicles 11.

Many boys believe that God is an old man on a throne who wants to take all the fun out of life, require them to give up their identity, wear geeky clothing, and memorize a list of rules in order to be 'spiritual.'

Written by an Army officer and youth pastor, Call of

Duty will help parents understand why their son doesn't seem to care about Christianity. With humor and insight, Cliff Graham describes the world of modern teenage boys and gives the reasons why they roll their eyes whenever they hear the words, 'Let's go to church.' The crisis with boys continues to grow, and the only way to stop it is by showing the next generation of men who the real Jesus is. A list of rules doesn't inspire a great soldier. The Call of Duty does.

Where is the line between God's mercy and judgment? In the latest volume of the New International Commentary on the Old Testament, James D. Nogalski offers a new translation of and commentary on several of the Minor Prophets—the Books of Joel, Obadiah, and Jonah—that grapple with this theme in radically different ways. This volume includes

a robust introduction for each book, delineating its textual transmission, historical context, literary form, and major themes. The introduction also discusses the role of each book within the collection of the Twelve (Minor) Prophets. The commentaries properly explain the texts verse by verse, illuminating each book's structure and canonical significance, yet always with an eye toward pastoral application. Academically rigorous and accessibly written, *The Books of Joel, Obadiah, and*

Jonah is an invaluable resource for scholars, students, and pastors. *Guns of Thunder* Scholastic Inc. Men cry out, "I know it's wrong, but why can't I stop?" This is a common cry throughout our culture from Christian men who are seeking to find freedom from the nagging grip of sexual lust. In *To Kill a Lion*, Bruce Lengeman takes men beyond behavior modification and answers the question, "but what's driving the drive?" Some approaches to sexual purity adequately tell men, "It's bad! Don't do it!" but don't give men real solutions. *To Kill a*

Lion is about destroying sexual roots. It is about who a man is, not just what he does. In *To Kill a Lion* you'll discover: * How to be pure without being less sexual * How to close sexual doors to Satan that at some point you opened * How a man's sexuality is connected to almost everything in his life * How to trace your sexual issues back to emotional issues * How sexual freedom in your heart will bring new sexual vitality to your marriage * How you can get to the place where you want sexual purity more than you want immorality [Power That Preserves](#) Indiana University Press *Killing Sin* is John Owen's

Puritan classic Mortification of Sin updated for today. Owen tackles the age-old challenge for the Christian: how to put to death the power of sin over our lives. This is something that is impossible through man-centered self-help or self-denial. But with God all things are possible. Though we will never be completely free of sin while alive in this world, by putting our faith on Christ with an expectation of His help, the Holy Spirit will bring the His cross into our hearts with all its sin-killing power. Owen tells us why it is imperative for the Christian to be killing sin in his life, what it actually means to kill sin, why only a Christian

can do it, why it is only possible through the power of the Holy Spirit, and how we can avail ourselves of the power of the Spirit to kill sin through gospel faith in the death and resurrection of Christ. Owen's original Mortification of Sin was written in 17th century English that is extremely difficult to understand. This Killing Sin translates Owen into contemporary English that is easy to read without dumbing it down so people today can read this very important book on a most critical topic.

The problem of the historical Jesus remains one of the most important themes in New Testament scholarship. Closely related to this problem is the question, How far can the impact made by the earthly Jesus and his own self-

understanding sustain the weight of the Christological construction put upon them by the early church? In the past two decades some scholars have taken an increasingly gloomy attitude toward the possibility of knowing anything of substance about Jesus from the Gospels or, at the opposite extreme, have sometimes made outlandish claims about him. Others, like the contributors to this volume, have begun moving the discussion into fresh areas of creative, responsible inquiry.

James A. Michener's masterly chronicle of South Africa is an epic tale of adventurers, scoundrels, and ministers, the best and worst of two continents who carve an empire out of a vast wilderness. From the Java-born Van Doorn family tree springs two great branches: one nurtures lush vineyards, the other settles the interior to become the first Trekboers and Afrikaners. The Nxumalos, inhabitants of a peaceful village unchanged for centuries, unite warrior tribes into the powerful Zulu nation.

And the wealthy Saltwoods are missionaries and settlers who join the masses to influence the wars and politics that ravage a nation. Rivalries and passions spill across the land of The Covenant, a story of courage and heroism, love and loyalty, and cruelty and betrayal, as generations fight to forge a new world.
