Have you ever had the feeling that you're treading water professionally; that you're coming up against limits in terms of what you can achieve? If so, says Christian Greiser, it might be high time to take some time out. Careers progress through distinct phases: we climb the career ladder, we change direction or set up a business and, eventually, we retire. As different as these phases are, so too are the rules of success that govern them. If we are to keep succeeding, we must mentally 'shift gears' and realign ourselves accordingly along the way. We must take an honest and sometimes challenging look at our own character: understanding the inner driving forces behind our previous successes, questioning our patterns of behaviour and discarding the behaviours that no longer serve us. In this way, we can accomplish the transition to the next phase of our life and career and come back stronger than before. Passionate 'career technician' Christian Greiser is here to help us do just that. In this humorously written new book, he draws on insights from his many years of experience as an executive coach and incorporates research findings, case studies and exercises to show how we can reset our mental attitude and achieve success and fulfilment in the next phase.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Designed as the comprehensive guide to cover letter preparation, the 272-page book shows examples of exciting and door-opening cover letters. The main section of the book shows cover letters by field and industry. For example, job hunters in the accounting field will find examples of cover letters used to blow doors open in the accounting, banking, and financial community. From aviation, to computer operations, to management, to sales, to transportation, cover letters tailored to specific fields are illustrated which can be used as "models" or "templates" for those involved in a job hunt. But what if a job hunter is changing careers or doesn't need a cover letter targeting a specific field or functional area? There's a section showing examples of all-purpose cover letters, career-change cover letters, cover letters for entrepreneurs, and cover letters for those seeking their first job. For those seeking advice on how to respond to ads, how to handle questions about salary requirements, how to request consideration for multiple job openings in the organization, and how to write letters for special situations, there's a section entitled "Sixteen Commonly Asked Questions About Cover Letters (and Job Hunting)."

One lesson of the tough employment market of the 1990s is that every job-seeker needs a resume customized to highlight his or her particular strengths in powerful and effective terms. This is particularly important for scientists and engineers, who until now have enjoyed a "buyer's" market. In this major revision of her popular resource for scientists and engineers, Adele Lewis joined forces with scientist and writer David J. Moore to show technical professionals how to prepare resumes to fit the special requirements of their professions. Whether you're targeting an entry-level job or a top management position, Best Resumes for Scientists and Engineers gives you everything you need to create the kind of standout resume technical employers are looking for, including all the basic elements that go into writing an effective resume - style, content, format, word choice, clearly defined objectives, career summaries, and more; worksheets that take you step-by-step through the resume writing process; ten powerful resume formats; more than seventy-five sample resumes for twenty-five different hi-tech industries; tips on what you should and shouldn't say in a cover letter; five simple steps that will improve your chances of landing an interview. Plus all-new information on writing a resume to target positions at every level of employment - from entry-level all the way to top management; conducting a successful technical job search in a recessionary climate; using the latest computer technologies when preparing your resume; and much more!
