Joy A. Schroeder offers the first in-depth exploration of the biblical story of Deborah, an authoritative judge, prophet, and war leader. For centuries, Deborah's story has challenged readers' traditional assumptions about the place of women in society. Schroeder shows how Deborah's story has fueled gender debates throughout history. An examination of the prophetess's journey through nearly two thousand years of Jewish and Christian interpretation reveals how the biblical account of Deborah was deployed against women, for women, and by women who aspired to leadership roles in religious communities and society. Numerous women-and men who supported women's aspirations to leadership-used Deborah's narrative to justify female claims to political and religious authority. Opponents to women's public leadership endeavored to define Deborah's role as "private" or argued that she was a divinely authorized exception, not to be emulated by future generations of women. *Deborah's Daughters* provides crucial new insight into the history of women in Judaism and Christianity, and into women's past and present roles in the church, synagogue, and society.

In 1913, Charles T. Sprading (1871-1959) wrote a book of remarkable prescience that anticipated the systematic development of an American libertarian tradition. He called it *Liberty and the Great Libertarians*. What he provided was a biography and intellectual analysis of some thirty great thinkers. Most valuable is his extraordinary job of editing. He chooses the best and most enlightening of their writings and brings them to life. The thinkers covered include Edmund Burke, Thomas Paine, Thomas Jefferson, William Godwin, Wilhelm von Humboldt, John Stuart Mill, Ralph Waldo Emerson, William Lloyd Garrison, Wendell Phillips, Josiah Warren, Max Stirner, Henry D. Thoreau, Herbert Spencer, Lysander Spooner, Henry George, Benjamin Tucker, Pierre Kropotkin, Abraham Lincoln, Auberon Herbert, G. Bernard Shaw, Oscar Wilde, Maria Montessori, and others. Now, not all of these people would be considered libertarians by the modern understanding. Some even called themselves socialists, as absurd as that may sound to us today. But they all exhibited in their writings a deep and abiding attachment to the idea of human liberty. They agree in the primacy of the individual. They agreed that the greatest threat to individual rights is the state. And they believed in fighting for these rights. They believed in the freedom of assembly, freedom of press, freedom of religion, freedom to think and act. They hated war and social control. They rejected every form of authoritarianism, and, in all these areas, they made huge contributions. As Sprading says in his introduction: The greatest violator of the principle of equal liberty is the State. Its functions are to control, to rule, to dictate, to regulate, and in exercising these functions it interferes with and injures individuals who have done no wrong. The objection to government is, not that it controls those who invade the liberty of others, but that it controls the non-invader. It may be necessary to govern one who will not govern himself, but that in no wise justifies governing one who is capable of and willing to govern himself. To argue that because some need restraint all must be restrained is neither consistent nor logical. Governments cannot accept liberty as their fundamental basis for justice, because governments rest upon authority and not upon liberty. To accept liberty as the fundamental basis is to discard authority; that is, to discard government itself; as this would

mean the dethronement of the leaders of government, we can expect only those who have no economic compromises to make, to accept equal liberty as the basis of justice. The introduction alone is extraordinary, given the times. On war he writes: "How is war to be abolished? By going to war? Is bloodshed to be stopped by the shedding of blood? No; the way to stop war is to stop going to war; stop supporting it and it will fall, just as slavery did, just as the Inquisition did. The end of war is in sight; there will be no more world wars. The laboring-man, who has always done the fighting, is losing his patriotism; he is beginning to realize that he has no country or much of anything else to fight for, and is beginning to decline the honor of being killed for the glory and profits of the few. Those who profit by war, those who own the country, will not fight for it; that is, they are not patriotic if it is necessary for them to do the killing or to be killed in war. In all the wars of history there are very few instances of the rich meeting their death on the battlefield." This is a fat book, 542 pages, with a vast index. It remains the best chronicle of libertarian thought ever put together, which is why Murray Rothbard chose this book as one of his favorites. This edition is a reprint of the original 1913 volume.

If it were once believed that the freedom of churches should be restricted to bring greater control to missions, Roland Allen sets out to overturn this conception. Warning against the danger of imposing greater limits on churches, the Author advocates that all members of the church, 'natives' and foreigners alike, must take an active role in its establishment and daily life. The study divides itself into nine chapters; the first, introducing Allen's standpoint, the second as an opening into the nature and character of Spontaneous Expression. The third chapter deals with modern attempts by 'natives' towards the liberty of their churches. The fear of the doctrine becoming weakened by natives taking it into their own hands is addressed by chapter four and this fear is widened into the realm of the Christian standard of morals in chapter five. Civilisation and enlightenment form the central themes of the sixth chapter. Chapters seven and eight tackle the distinction between the Church and missionary societies. It is in the final chapter that the future of Spontaneous Expansion is investigated and Allen puts forward his ideas which, as he rightly predicted, were broadly accepted fifty years and longer still after their original publication.

This is American history told through the stories of an atypical, for Utah, region. Castle Valley is roughly conterminous with two counties, Carbon and Emery, which together formed a rural, industrial enclave in a mostly desert environment behind the mountain range that borders Utah's principal corridor of settlement. In Castle Valley, coal mining and the railroad attracted diverse, multiethnic communities and a fair share of historic characters, from Butch Cassidy, who stole its largest payroll, to Mother Jones, who helped organize its workers against its mining companies. Among the last major segments of the state to be settled, it was also a generally poor region that stretched the capabilities of people to scratch a living from a harsh landscape. The people of Castle Valley experienced complex, unusual combinations of both social cohesion and conflict, but they struggled through poverty, labor disputes, major mining disasters, and other challenges to build communities whose stories reflected the historical course of the nation as a whole. In order to convey her subject's both unique and representative qualities, Nancy Taniguchi has written an epic history that is not just local history, but American history written locally. Nancy J. Taniguchi, who lived for thirteen years in Castle Valley and was previously on the faculty of the College of Eastern Utah in Price, is professor of history at California State University, Stanislaus. She is the author of numerous published articles in mining, legal, women's, western, and Utah history and of one book, *Necessary Fraud: Progressive Reform and Utah Coal*.
