Iris Anatomy –

Worksheet. The

kidney is divided

into four sections; the upper, middle, lower, and base.

Upper kidney is the upper portion of the kidney, while the lower is the lower portion. The base, or middle, kidney serves as the primary outlet for waste materials from the rest of the body.

Cow Eye

Dissection Lab

Answer

Cow Eye

Dissection:

Examining

Structure and

Function.

Carolina

Biological Supply Company1.

Introduction. The eyes of cows are structurally and

functionally similar to the eyes of humans. During this activity, you will dissect a cow eye. You will observe several important features of the eye and develop your understanding of how each part functions to make vision possible.
