"This book offers investors an in-depth guide to understanding the microfinance investment value chain and its benefits. It aims to increase the awareness of this growing asset class among traditional investors by providing a detailed review of the current state of the industry. The book

focuses on the two key intermediaries linking investors and small enterprises: financial institutions and investment funds, covering their respective markets, models, risks, performance and impact. By describing their dynamics, strengths and weaknesses, it helps the investor to better grasp the elements of choice when deciding to add microfinance in his portfolio." --Preface.

Uganda Confidential ABC-CLIO

The classic work of political, economic, and historical analysis, powerfully introduced by Angela Davis In his short life, the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution, leading movements in North America, South America, the African continent, and the Caribbean. In each locale, Rodney found himself a lightning rod for working class Black Power. His deportation catalyzed 20th century Jamaica's most significant rebellion, the 1968 Rodney riots, and his scholarship trained a generation how to think politics at an international scale. In 1980, shortly after founding of the Working People's Alliance in Guyana, the 38-year-old Rodney would be assassinated. In his magnum opus, *How Europe Underdeveloped Africa*, Rodney incisively argues that grasping "the great divergence" between the west and the rest can only be explained as the exploitation of the latter by the former. This meticulously researched analysis of the abiding repercussions of European colonialism on the continent of Africa has not only informed decades of scholarship and activism, it remains an indispensable study for grasping global inequality today.
