Adult Cradle Cap: Information, Treatment, And More

Cradle cap is neither allergic nor bacterial infection but can be considered as an inflammatory condition. It is a fungal infection, which surfaces due to the antibiotics given to mother before the child's birth. When the hormones passed by a mother to a child enlarge the oil glands, more sebum is produced.

15 Home Remedies for Cradle Cap that Actually Work

If the scales don't loosen easily, rub petroleum jelly or a few drops of mineral oil onto your baby's scalp. Let it soak into the scales for a few minutes, or hours if needed. Then brush and shampoo your baby's hair as usual. If you leave the oil in your baby's hair, the cradle cap may get worse.

Cradle Cap Solutions? - Mamapedia™

Put the cream on your baby according to your GP's and the packet instructions. Babies very rarely need an over-the-counter anti-dandruff shampoo. This can irritate your baby's skin and eyes, so you should dilute it in water if you do use it. Don't be worried if the cradle cap comes back after treatment.
