The 20th century was a dynamic period for the theatrical arts in China. The four volumes of *A History of Chinese Theatre in the 20th Century* display the developmental trajectories of Chinese theatre over those hundred years. This volume examines the development of

Chinese theatrical art from the Cultural Revolution to the end of the 20th century. The Cultural Revolution had a devastating influence on the theatrical profession, reducing the creation of performance art to serving the political authorities. Adopting a critical view, the author argues that the Reform and Opening-up of the late 1970s not only ended this period of political interference, but also brought about chaos and doubts to the theatrical circle, since neither tradition nor western concepts were a panacea for the

problems faced by Chinese theatre. He posits that people should advocate patterns of drama that are rich and colourful in their expression while encouraging the coexistence and competition of different artistic concepts. Scholars and students in the history of the arts, especially the history of Chinese theatre, will find this book to be an essential guide.

"In the cozy den of the large but modest house in Omaha where he has lived since he started on his first billion,

Warren Buffett watched the horrors of Hurricane Katrina unfold on television in early September 2005. . . . On the fourth day, he beheld in disbelief the paralysis of local, state, and federal authorities unable to commence basic operations of rescue and sustenance, not just in New Orleans, but in towns and villages all along the Gulf Coast. . . He knew exactly what he had to do. . ." So begins the vivid fictional account by political activist and bestselling author Ralph Nader that answers the

question, "What if?" What if a cadre of superrich individuals tried to become a driving force in America to organize and institutionalize the interests of the citizens of this troubled nation? What if some of America's most powerful individuals decided it was time to fix our government and return the power to the people? What if they focused their power on unionizing Wal-Mart? What if a national political party were formed with the sole purpose of advancing clean elections? What if these seventeen

superrich individuals decided to galvanize a movement for alternative forms of energy that will effectively clean up the environment? What if together they took on corporate goliaths and Congress to provide the necessities of life and advance the solutions so long left on the shelf by an avaricious oligarchy? What could happen? This extraordinary story, written by the author who knows the most about citizen action, returns us to the literature of American social movements—to Edward

Bellamy, to Upton Sinclair, to John Steinbeck, to Stephen Crane—reminding us in the process that changing the body politic of America starts with imagination.

Southern Edwardseans Routledge
The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While

Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their

own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

This book explores how religious families draw on their spiritual beliefs, religious practices, and faith communities to help them strengthen their marital relationships and their parenting. Using in-depth interviews from eight religious groups — Asian American Christian; Black Christian; Catholic and Orthodox Christian; Evangelical Christian; Jewish; Latter-day Saint; Mainline Protestant; and Muslim — the book uses the interviewees' own

words to show how their religion impacts their lives and influences their relationships. The book also includes an introductory chapter which describes the study and the sample; a conceptual chapter which places the empirical chapters in theoretical context in sociological study of religious families; and a concluding chapter which describes how the editors and authors developed respect and admiration for religious cultures other than their own. Drawing on such a diverse group of religions in America, this book will be of interest to those studying individual religious groups, as well as wider ecumenism and inter-religious dialogue. This book was originally published as a special issue of the

The Crusaders' settlement of Palestine in the 12th and 13th centuries has been seen in terms of the domination of a native peasantry by an alien military elite and as Europe's first experiment in overseas colonization. This monograph attempts to shed light on the effects that the crusader conquest of AD 1099 would have on the pattern of settlement in the country by considering one particular part of it, the central Sharon Plain. In 1983 excavations conducted by the British School of Archaeology in Jerusalem at the Red Tower, a small Crusader castle situated in the centre of the plain,

were combined with a programme of archaeological field survey in the surrounding region. There are chapters on history and architecture, as well as a full descriptive gazetteer of sites in the central Sharon plain occupied between 1099 and 1516, giving an invaluable picture of the impact the Crusaders had on the region.

Here, in this compelling account of his early life, the

author sketches his moral and intellectual history from childhood to the early fifties, providing the reader with a glimpse into a way of life that was radically different from anything an American or even a Western European could know. Using the events of his life as a starting point, Native Realm sets out to explore the consciousness of a writer and a man, examining the possibility of finding glimmers of meaning in the midst of chaos while remaining true to oneself. In this beautifully written and elegantly

translated work, Milosz is at his techniques. This highly illustrated photocopy her works if they were to be taught ... Today her works are very best.

Zora Neale Hurston (1891 -- 1960)
Of the various signs that the study of literature in America has been transformed, none is more salient than is the resurrection and canonization of Zora Neale Hurston. Twenty years ago, Hurston's work was largely out-of-print, her literary legacy alive only to a tiny, devoted band of readers who were often forced to

be taught ... Today her works are central to the canon of African-American, American, and Women's literatures ... The author of four novels, *Jonah's Gourd Vine* (1934), *Their Eyes Were Watching God* (1937), *Moses, Man of the Mountain* (1939), and *Seraph on the Suwanee* (1948); two books of folklore -- *Mules and Men* (1935) and *Tell My Horse* (1938); an autobiography, *Dust Tracks On a Road* (1942); and over 50 short stories, essays, and plays, Hurston was one of the most widely acclaimed Black authors for the two decades between 1925 and 1945. -- from the Preface by Henry Louis Gates, Jr.

Native Realm The Routledge Companion to William Morris A textbook covering human body structure and function. Coinage in the Latin East Vandenhoeck & Ruprecht William Morris (1834 – 96) was an English poet, decorative artist,

translator, romance writer, book designer, preservationist, socialist theorist, and political activist, whose admirers have been drawn to the sheer intensity of his artistic endeavors and efforts to live up to radical ideals of social justice. This Companion draws together historical and critical responses to the impressive range of Morris' s multi-faceted life and activities: his homes, travels, family, business practices, decorative artwork, poetry, fantasy romances, translations, political activism, eco-socialism, and book collecting and design. Each chapter provides valuable historical and literary background information, reviews relevant opinions on its subject from the late-nineteenth century to

the present, and offers new approaches to important aspects of its topic. Morris' s eclectic methodology and the perennial relevance of his insights and practice make this an essential handbook for those interested in art history, poetry, translation, literature, book design, environmentalism, political activism, and Victorian and utopian studies.

Rated one of the "Best ADHD Books of All Time" by Book Authority The ADHD Empowerment Guide is different from other parenting ADHD books because it helps

parents identify and build upon their child's strengths and natural talents in order to develop a specific plan to unlock their child's potential. Parents are invited to complete two easy-to-follow questionnaires to identify their child's natural abilities, as well as determine key characteristics in their child that research has shown to help children with ADHD succeed in life. These characteristics include emotional control, integrity, grit, resiliency, resourcefulness, organization,

motivation, school fit, support systems, and productive use of technology. Using the practical strategies presented, strength-building activities, and the information learned from the questionnaires, parents can develop a success plan that will unlock their child's potential and build a positive outlook on the journey of raising a child with ADHD. The authors, two professionals who have “ been there and done that ” with their own children with ADHD, illustrate their strategies and content by

highlighting successful people with ADHD who excelled in various areas and share some of their success secrets to raising a successful child with ADHD.
