After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. This is why so many do-it-yourself restorers outsource the work, at considerable expense, to an experienced upholstery shop. Taking the time to acquire the skills for upholstery restoration may feel like a daunting task, but what if an experienced upholsterer presented every skill you needed to restore upholstery yourself? Starting with a list of necessary tools, author Fred Mattson guides you through all the required tasks, including seat restoration; door panel removal, patterning, assembly, and installation; headliner removal and

installation; carpet cutting; and even convertible top restoration. The easy-to-follow step-by-step presentation allows for a thorough understanding of all the processes. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show-quality specifications. Other restoration books may show you beautifully restored interiors, but they don't show you how to produce them. This book helps you develop the skills needed with instruction from a professional upholsterer, saving you thousands of dollars over outsourcing the restoration. If you are interested in saving money, doing a complete restoration yourself, or simply want to know how it's done, this book is a handy addition to your automotive library.

From the era-defining author of *Generation X* comes a novel of overworked coders who escape the serfdom of Bill Gates to forge their own path. They are Microserfs—six code-crunching computer whizzes who spend upward of sixteen hours a day “coding” and eating “flat” foods (food which, like Kraft singles, can be passed underneath closed doors) as they fearfully scan company e-mail to learn whether the great Bill is going to “flame” one of them. But now there's a chance to become innovators instead of cogs in the gargantuan Microsoft machine. The intrepid Microserfs are striking out on their own—living together in a shared digital flophouse as they desperately try to cultivate well-rounded lives and find love amid the dislocated, subhuman whirl and buzz of their computer-driven world.

Fiery aristocrat, Eden Rose, uprooted from her native Scotland, has tended a foundering marriage and failing ranch at the corner of Crazy Woman Creek and the Powder River for a decade. Best friend, backwoods spitfire Maddie True, has her own woes a few miles away: widowed with a passel of young children, and caretaker to her addled father. Abandoned by her husband during the height of Wyoming Territory's worst drought in history, Eden depends on her inept brother, Aiden, to see her through the coming winter. But when he disappears into the wild Bighorn mountains, she shuns Maddie's fearful cautions, teaming with enigmatic Lakota holy man, Intah, to find her brother before the wicked snow holds them all hostage. “Light of the Northern Dancers is a powerful novel of a woman's journey, thought-provoking and unsettling in its authenticity and unflinching honesty.” — Susan Wiggs, NYT Bestselling Romance Author “Half of what happens to us may have reason, the rest is chaos. Robin F. Gainey's second novel, Light of the Northern Dancers, has this brand of existentialism. It's real and it doesn't let go!” — Tom Skerritt, Award Winning Actor, Writer, Director

A provocative and thoroughly researched inquiry into what we find beautiful and why, skewering the myth that the pursuit of beauty is a learned behavior. In *Survival of the Prettiest*, Nancy Etcoff, a faculty member at Harvard Medical School and a practicing psychologist at Massachusetts General Hospital, argues that beauty is neither a cultural construction, an invention of the fashion industry, nor a backlash against feminism—it ' s in our biology. Beauty, she explains, is an essential and ineradicable part of human nature that is revered and ferociously pursued in nearly every civilization—and for good reason. Those features to which we are most attracted are often signals of fertility and fecundity. When seen in the context of a Darwinian struggle for survival, our

sometimes extreme attempts to attain beauty—both to become beautiful ourselves and to acquire an attractive partner—suddenly become much more understandable. Moreover, if we understand how the desire for beauty is innate, then we can begin to work in our own interests, and not just the interests of our genetic tendencies.
