The Straw Bale House Boom! Studios

'Patriots' is a man's action-adventure novel set in the near future, as America is torn-by a full scale socio-economic collapse.

Constructing Nineteenth-century Religion Routledge
Thirteen-year-old Emma Biggs is passionate about gardening and eager to share her passion with other kids! Gardening with Emma is a kid-to-kid guide to growing healthy food and raising the coolest, most awesome plants while making sure there's plenty of fun. With plants that tickle and make noise, tips for how to grow a flower stand garden, and suggestions for veggies from tiny to colossal, Emma offers a range of original, practical, and entertaining advice and inspiration. She provides lots of useful know-how about soil, sowing, and caring for a garden throughout the seasons, along with ways to make play spaces among the plants. Lively photography and Emma's own writing (with some help from her gardening dad, Steve) capture the authentic creativity of a kid who loves to be outdoors, digging in the dirt.

Custom Auto Interiors Tuttle Publishing

This little known classic history of flight-testing the Xplanes is reborn, sweepingly revised and updated with new and recently released information. Aviation enthusiasts will savor the most detailed account available of record-setting aircraft like the X-1 and XZ-15, flown by Chuck Yeager and other legends, as well as all the cutting-edge NASA and Defense Department programs that perfected the aeronautical concepts and technology used in US military, space, and commercial craft. A completely updated and reinterpreted text, three new chapters, dozens of rare photographs, and the complete statistical record of nearly six decades of testing make this required reading for anyone interested in manned flight.

Automotive Upholstery & Interior Restoration CarTech Inc

"A guide to essential knowledge of plants and practices for successful perennial shade gardening in the northeastern US states and adjoining areas of Canada"--

The Fortunate Ones Algonquin Books

CEO Refresher The Best Books of 2007 Product innovation is the key to business growth. But many books deal with innovation from the business process view alone, or confuse innovation with creativity. Written by an innovation expert whose products generate more than one billion dollars in annual revenue, Something Really New introduces a straightforward but powerful framework for creating exciting new product and service concepts ... simply by asking three essential questions. From an electronic hotel kiosk that provides return airline boarding passes for guests, to something as mundane as the evolution of the toaster, the book provides entertaining, illuminating examples that show how to determine what customer needs aren't being met, using simple methods to arrive at revolutionary conclusions. For example, "What is a product really used for?" The question may seem elementary, but the right answer is far from obvious. This and other key questions demonstrate how readers can move beyond mere market research to get to the root of real innovation. Practical and eye-opening, this book shows companies how to take the kind of startling leaps that will leave their competition in the dust.

The Guide to Humane Critter Control Mitchell Beazley

A provocative and thoroughly researched inquiry into what we find beautiful and why, skewering the myth that the pursuit of beauty is a learned behavior. In *Survival of the Prettiest*, Nancy Etcoff, a faculty member at Harvard Medical School and a practicing psychologist at Massachusetts General Hospital, argues that beauty is neither a cultural construction, an invention of the fashion industry, nor a backlash against feminism—it's in our biology. Beauty, she explains, is an essential and ineradicable part of human nature that is revered and ferociously pursued in nearly every civilization—and for good reason. Those features to which we are most attracted are often signals of fertility and fecundity. When seen in the context of a Darwinian struggle for survival, our sometimes extreme attempts to attain beauty—both to become beautiful ourselves and to acquire an attractive partner—suddenly become much more understandable. Moreover, if we understand how the desire for beauty is innate, then we can begin to work in our own interests, and not just the interests of our genetic tendencies.

Popular Mechanics Chelsea Green Publishing

Updated in its eleventh edition, *The Media of Mass Communication* engages readers in the pursuit of greater media literacy and provides accessible insight into the important issues that confront students as consumers and purveyors of mass media. Through exceptional coverage of contemporary media issues and trends, including the on-going transformations in mass media, this text balances the principles and foundations of media literacy with lively examples, streamlined coverage, and a robust media package.

ING_08 Review quote

Catalog of Sears, Roebuck and Company Routledge

The word "meadow" conjures images of wide expanses of land, but a mini meadow — a kind of informal flower garden started with seed sown directly into the soil — can be any size; plus, it's fun, easy to grow, and good for the planet. With as little as 50 square feet and for less than \$20, gardeners can plant a colorful meadow that demands little in the way of space, mowing, or maintenance, uses less water than a traditional lawn, and provides habitat for pollinators — not to mention a natural exploration space for children. From choosing the right variety of seeds, preparing the soil, sowing

evenly, and watering well, author Mike Lizotte guides readers through the process of successfully creating a miniature meadow that suits their climate, soil, and growing goals, whether planting to beautify a hellstrip, halt erosion, fill a boggy spot, or establish a nesting area for bees and butterflies. *Mini Meadows* offers gardeners of all levels the keys to creating, caring for, and reaping the rewards of thriving meadows through the seasons, year after year.

Miniature Moss Gardens Franklin Classics

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. This is why so many do-it-yourself restorers outsource the work, at considerable expense, to an experienced upholstery shop. Taking the time to acquire the skills for upholstery restoration may feel like a daunting task, but what if an experienced upholsterer presented every skill you needed to restore upholstery yourself? Starting with a list of necessary tools, author Fred Mattson guides you through all the required tasks, including seat restoration; door panel removal, patterning, assembly, and installation; headliner removal and installation; carpet cutting; and even convertible top restoration. The easy-to-follow step-by-step presentation allows for a thorough understanding of all the processes. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show-quality specifications. Other restoration books may show you beautifully restored interiors, but they don't show you how to produce them. This book helps you develop the skills needed with instruction from a professional upholsterer, saving you thousands of dollars over outsourcing the restoration. If you are interested in saving money, doing a complete restoration yourself, or simply want to know how it's done, this book is a handy addition to your automotive library.

An Essay on the Steam Boiler Osprey Publishing

Writing Deskbook for Administrative Judges: An Introduction provides administrative judges (and their supervisors) with general guidelines for insuring that administrative decisions are of uniformly high quality and clarity. In explaining how to make decisions more readable, this book is unique in its focus on those parts of the decision that are most critical to the litigants and to reviewing courts. Designed as a practical guide to the decision writing process, the deskbook provides advice, guidelines and checklists for busy administrative law judges. In a few short chapters, the book: Analyzes the rhetorical influences that affect the writing of decisions Identifies ways to improve the readability of administrative decisions Suggests organizational strategies for writing Findings of Fact and Conclusions of Law Suggests techniques for improving the organization and clarity of the decision Explains how document design improves readability Recommends time-saving and quality control strategies Each chapter includes easy-to-follow illustrations and examples, most of which are taken from actual decisions.

Consumers Index to Product Evaluations and Information Sources Prentice Hall

Many copies in stock but still heavy demand; only a few titles published on this subject. Very popular in rural WA too.
