You could say that my railroad, the Madham Line, is almost the most important thing in my life. Next to Andy Morrow, my best friend. Lots of people think Doug Hanson is a freak -- he gets beat up after school, and the girl of his dreams calls him a worm. Doug's only refuge is creating an elaborate bridge for the model railroad in his basement and hanging out with his best friend, Andy Morrow, a popular football star who could date any girl in school. Doug and Andy talk about everything -- except what happened at the Tuttle place a few years back. It does not matter to Andy that we live in completely different realities. I'm Andy's best friend. It does not matter to Andy that we hardly ever actually do anything together. As Doug retreats deeper and deeper into his own reality, long-buried secrets threaten to destroy both Doug and Andy -- and everything else in Doug's fragile world.

USA TODAY BESTSELLER! New York Times bestselling author Sharyl Attkisson takes on the media's misreporting on Black Lives Matter, coronavirus, Joe Biden, Silicon Valley censorship, and more. When the facts don't fit their Narrative, the media abandons the facts, not the Narrative. Virtually every piece of information you get through the media has been massaged, shaped, curated, and manipulated before it reaches you. Some of it is censored entirely. The news can no longer be counted on to reflect all the facts. Instead of telling us what happened yesterday, they tell us what's new in the prepackaged soap opera they've been calling the news. For the past four years, five-time Emmy Award-winning investigative journalist and New York Times bestselling author Sharyl Attkisson has been collecting and dissecting alarming incidents tracing the shocking devolution of what used to be the most respected news organizations on the planet. For the first time, top news executives and reporters representing every major national television news outlet—from ABC, CBS, NBC, and CNN to FOX and MSNBC—speak frankly, confiding in Attkisson about the death of the news as they once knew it. Their concern transcends partisan divides. Most frightening of all, a broad campaign in the media has convinced many Americans not only to accept but to demand censorship over journalism. It is a stroke of genius on the part of those seeking to influence public opinion: undermine public confidence in the news, then insist upon "curating" information and divining the "truth." The thinking is done for you. They'll decide which pesky facts shouldn't cross your desk by declaring them false, irrelevant, debunked, unsafe, or out-of-bounds. We have reached a state of utter absurdity, where journalism schools teach students that their own, personal truth or chosen narratives matter more than reality. In *Slanted*, Attkisson digs into the language of propagandists, the persistence of false media narratives, the driving forces behind today's dangerous blend of facts and opinion, the abandonment of journalism ethics, and the new, Orwellian definition of what it means to report the news.

Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s. Buried deep below the everyday life of our society lives an underground world of nightmares-of violence and murder no one dares speak about. Contracts and laws weave the web of our culture together. Our Masters walk amongst us. They can be our friends, or the ones to make us disappear forever. Where I once had found peace within my existence, it all ended with the death of my cruel, yet caring owner. My world shattered and I was taken back to the one place I had hoped to never see again-the cells of Whitlock-a subterranean fortress for slaves who await their new placement. Now I have no rights. I have no say. My feelings and wellbeing are meaningless. Escape is impossible, but I have nothing left to lose. To stand any chance of survival, I must give my life as collateral to the highest bidder: Soul for Sale.slave 24690

Today's financial and economic tribulations were a long time in the making. Many people ask, "Why didn't someone see it coming?" A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's *Conquer the Crash*, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But *Conquer the Crash* is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is

much more to come. That means more danger, but also great opportunity. *Conquer the Crash*, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. *Conquer the Crash*, 2nd Edition readers will receive exclusive online access to the *Conquer the Crash Readers Page*, where Prechter continually updates the book's recommended services and institutions.

In a lyrical love letter to guide dogs everywhere, a blind poet shares his delightful story of how a guide dog changed his life and helped him discover a newfound appreciation for travel and independence. Stephen Kuusisto was born legally blind—but he was also raised in the 1950s and taught to deny his blindness in order to "pass" as sighted. Stephen attended public school, rode a bike, and read books pressed right up against his nose. As an adult, he coped with his limited vision by becoming a professor in a small college town, memorizing routes for all of the places he needed to be. Then, at the age of thirty-eight, he was laid off. With no other job opportunities in his vicinity, he would have to travel to find work. This is how he found himself at Guiding Eyes, paired with a Labrador named Corky. In this vivid and lyrical memoir, Stephen Kuusisto recounts how an incredible partnership with a guide dog changed his life and the heart-stopping, wondrous adventure that began for him in midlife. Profound and deeply moving, this is a spiritual journey, the story of discovering that life with a guide dog is both a method and a state of mind.

Who Wants to Be Normal Anyway?! Wiley

The next financial collapse will resemble nothing in history. . . . Deciding upon the best course to follow will require comprehending a minefield of risks, while poised at a crossroads, pondering the death of the dollar. The U.S. dollar has been the global reserve currency since the end of World War II. If the dollar fails, the entire international monetary system will fail with it. But optimists have always said, in essence, that confidence in the dollar will never truly be shaken, no matter how high our national debt or how dysfunctional our government. In the last few years, however, the risks have become too big to ignore. While Washington is gridlocked, our biggest rivals—China, Russia, and the oil-producing nations of the Middle East—are doing everything possible to end U.S. monetary hegemony. The potential results: Financial warfare. Deflation. Hyperinflation. Market collapse. Chaos. James Rickards, the acclaimed author of *Currency Wars*, shows why money itself is now at risk and what we can all do to protect ourselves. He explains the power of converting unreliable investments into real wealth: gold, land, fine art, and other long-term stores of value.
