Long since regarded as an inessential object that simply adds to the beauty, convenience or effectiveness of an outfit, accessories are now considered key items in a fashion collection and as stand-alone pieces worthy of our undivided attention. Basics Fashion Design 09: Designing Accessories is filled with important information that any designer will need to know, examining four key items from concept to production: the bag, footwear, jewellery and millinery. The key accessories are dissected to clearly display the core components, giving a clear view of how each connects. The design process is explored by looking at creative product development, from gathering research to generating ideas into key products, construction techniques and the essential tools of the trade used in modern accessories design. 2D pattern and 3D modelling techniques are described in detail with explanations of traditional and rapid prototyping tools in use today. Bespoke and commercial production is examined and creative solutions to technical challenges are presented. Designing Accessories also explores specialist finishing techniques, such as hand-finishing and machine embellishment and contains descriptions of contemporary techniques that break new boundaries in accessories design. A detailed explanation of small accessories, essential to the accessories designer, will broaden the reader's knowledge and provide them with the dexterity of skills to enter the fashion industry. This title is filled with images of beautiful accessories to inspire young designers. It is essential reading for fashion students and all those interested in accessories design. The book also includes a whole chapter on small accessories (eyewear, scarves, ties, wristwatches, belts and gloves).

2016 Christian Book Award finalist (Bibles category) Stories of Scripture are often portrayed two-dimensionally, making people in the Bible seem familiar, predictable, even flat. We don't always read their stories with much awareness of the pressures they faced, the doubts they had, the assumptions they made, or the alternatives they have chosen. The Dancing in the Desert Devotional Bible in the New Living Translation encourages readers to take an honest look at the people in the Bible. Chris Tiegreen, author of many popular devotionals for both men and women, has written 270 devotionals that explore the lives of people in the Bible and how they faced their own life's wilderness and found meaning, significance, and purpose with God. When we keep our gaze fixed on a story bigger than our own lives, we, too, can learn to dance in even the driest of our deserts.

Why do people work hard, and take pride in what they do? This book, a philosophically-minded enquiry into practical activity of many different kinds past and present, is about what happens when people try to do a good job. It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human being, which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive and frustrated. The Craftsman shows how history has drawn fault-lines between craftsman and artist, maker and user, technique and expression, practice and theory, and that individuals' pride in their work, as well as modern society in general, suffers from these historical divisions. But the past lives of crafts and craftsmen show us ways of working (using tools, acquiring skills, thinking about materials) which provide rewarding alternative ways for people to utilise their talents. We need to recognise this if motivations are to be understood and lives made as fulfilling as possible.
