Initiative Acc Art Books
In the first biography of Joan
Crawford to give the full,
uncensored story, bestselling
author David Bret tells
Crawford's rags to riches
climb, from working in a

Kansas City laundry to
collecting an Oscar for her
defining role in *Mildred Pierce*,
and on to her devotion to
Christian Science and reliance
on vodka. He discusses the
star's legendary relationship
with Clark Gable, her countless
love affairs, her marriages --
three of them to gay men --
and her obsession with rough
sex. Bret divulges what really
happened that led her to
disinherit two of her four
children, earning her the
nickname "Mommie Dearest,"
as well as how her loathed

mother forced Crawford to work as a prostitute, appear in pornographic films, and sleep her way to the top. Bret analyzes Crawford's films, many of which were constructed purely as vehicles where actress and character were often indistinguishable. Overtly generous towards her coterie of gay friends, she was heartless towards her enemies, particularly Bette Davis, her co-star in *Whatever Happened to Baby Jane*, with whom she shared a lifelong feud. Drawing on a wealth of unpublished material and interviews, David Bret presents a unique, fascinating portrait of a single-minded, uncompromising woman.

Basics of Structural Dynamics and Aseismic Design Arms & Armour

To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun,

India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.sion.

- An exhaustive appraisal of the Rolex watch, including studies of vintage models, current designs and special editions- Learn how to spot fakes using the same clues as the experts- Invaluable to any watch-lover, especially

aspiring Rolex collectors. Horological trends flit by faster than ever in today's fast-paced society. But Rolex does not rely on gimmicks; theirs is a more perennial allure, with a reputation built on traditions and hard-earned skill. A company that innovates while paying homage to their roots, every Rolex is the cumulation of centuries of watchmaking expertise. Within this book you will find explanations of the making process, descriptions of the materials involved and expert commentary on what makes each Rolex wristwatch unique. The Book of Rolex demonstrates how each model fits its social milieu, present and past. It also addresses the multitude of

fakes on the market, including the so-called 'Frankensteins' - watches made from a mixture of real parts and forgeries, which are notoriously hard to spot - imparting all the skills needed to pick counterfeits out of a line-up. A holistic view of Rolex watches, this book promises to be as timeless as the brand itself. Should you be considering a Rolex, this book will convince you of its worth as an investment.

This is one of the
most significant
military books of the
twentieth century. By
an outstanding soldier
of independent mind,
it pushed forward the
evolution of land
warfare and was
directly responsible
for German armoured
supremacy in the early
years of the Second
World War. Published
in 1937, the result of
15 years of careful
study since his days
on the German General
Staff in the First
World War, Guderian's
book argued, quite
clearly, how vital the

proper use of tanks and
supporting armoured
vehicles would be in
the conduct of a
future war. When that
war came, just two
years later, he proved
it, leading his
Panzers with
distinction in the
Polish, French and
Russian campaigns.
Panzer warfare had
come of age, exactly
as he had forecast.
This first English
translation of Heinz
Guderian's classic
book - used as a
textbook by Panzer
officers in the war -
has an introduction
and extensive
background notes by
the modern English
historian Paul Harris.

Android Internals - Volume I CRC Press

"The Cultural Revolution had transformed me into a devil," writes Zhai. In 1966, at age 15, she led a Red Guard brigade that tortured Chinese citizens branded counterrevolutionaries. She beat

innocent people to death and had others exiled; her squad raided homes and murdered people. Now a professor of engineering in British Columbia, Zhai expresses remorse and guilt rather perfunctorily, and her cool confession is tinged with rationalizations. She blames the flourishing of her "evil, barbaric side" on her blind faith in Chairman Mao. Her fervor gave way to bitter disillusionment when she herself was banished to the countryside in 1969 to do three years of hard labor and be "re-educated" by peasants. This is a grisly account of how political brainwashing can induce converts to commit monstrous acts.

So you're finally making the leap from Mac OS 9 to Mac OS X. Good for you! Or maybe you've just switched from Windows and bought a brand-spanking-new iMac. Bravo! Or perhaps you've never used a computer before and have bought a new Mac because you heard how easy they are to use. Bonus points! Whatever your reason for diving into the Aqua-filled world of Mac OS X, rest assured that you made the right choice. Thing is, Apple has made Mac OS X quite different from earlier Mac operating systems, and it's way different than Windows, so you may need a little help finding your way through that big, complicated operating system - not to mention all that great

software that comes bundled with it.

That's why veteran Mac-scribe Bob LeVitus has written a not-so-big, not-so-complicated Dummies book about Mac OS X. Recently revised for version 10.2 (a.k.a. Jaguar), Mac OS X For Dummies, 2nd Edition, shows you what Mac OS X is all about, without boring you silly, confusing you to the point of frustration, or poking you with sharp objects. You'll discover the information and advice you need in a language that you can understand (unlike those other computer books that shall remain nameless). Inside Mac OS X For Dummies, 2nd Edition, you'll find the following topics and more: Setting up and turning on your new

Mac Getting around on the Desktop and in the Dock Finding stuff with the Finder Working with Mac OS X applications and files Surfing the Internet - Mac OS X style Sharing and printing files and documents Making your Mac your own: Setting System Preferences Troubleshooting - Yes, even Mac OS X crashes every once in a while Top Ten lists on how to speed up your Mac experience, accessories you should consider, Web sites all Mac freaks should know about, and valuable third-party software No matter what you use your Mac for - whether it's to surf the Internet, watch DVDs, listen to online music, or any number of other reasons - Mac OS X For Dummies, 2nd Edition, will get you well on

your way to becoming a bona fide Mac guru.

Beyond Beatmatching

ACTEX Publications

A wide-ranging discussion of factors that impede the cumulation of knowledge in the social sciences, including problems of transparency, replication, and reliability. Rather than focusing on individual studies or methods, this book examines how collective institutions and practices have (often unintended) impacts on the production of knowledge.

Analog Synthesizers Da Capo Press

The Lateran Synod of 649 was a major event in the 'monothelite' controversy of the seventh century over 'wills' and 'operations' in Christ. It represented a determined attempt

by the papacy to frustrate and reverse the ecclesiastical policy of the emperor and patriarch at Constantinople. It represented the boldest challenge to imperial authority by churchmen that late antiquity had seen. The theology adopted by the synod and its expression in a series of speeches was the work of a team of Greek monks under the leadership of St Maximus the Confessor. This translation will add to the still limited body of material available in English for the study of a writer who is widely held to have been the greatest of all Byzantine theologians. The Acts of the synod have been a major puzzle ever since their editor, Rudolf Riedinger,

demonstrated that the Greek version, not the Latin, is the original, even though the council must have conducted its business in Latin. This edition offers a new explanation of this anomaly, which restores authenticity to the synodal sessions, without denying that the Acts, as published, were not a straight factual record but propaganda intended to convince the Roman world of the orthodoxy and authority of the papacy.

The team behind Mixed In Key software explores the art of professional DJing to answer one simple question: What can you do to become a better DJ? Beyond Beatmatching will show you how to: Use harmonic mixing in your DJ sets Mix with energy levels in mind Dig for the most unique tracks and define your sound Build a perfect DJ laptop Mix a flawless DJ set Create your own mashups Get gigs at nightclubs and

festivals Build your brand with a logo design, publicity shots and press kit Use Facebook and social media to expand your audience The book also features in-depth interviews with key DJs, innovators and executives, including Markus Schulz, DJ Sasha, A-list manager Ash Pournouri, talent booker Biz Martinez, marketing guru Karl Detken, and many more. Written in a user-friendly, straightforward tone and rife with valuable insights about the history (and future) of modern DJing, Beyond Beatmatching covers ground that no guide to DJing has attempted to date. Get this book today and discover a wealth of advanced techniques already known to the world's best DJs.

18 BPP Bloomsbury Publishing
Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes

entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy

Family, a group of
Templars who defied
the church, and a
mysterious relic
stained with the
sacred blood of
Christ Himself.
