"The Cultural Revolution had transformed me into a devil," writes Zhai. In 1966, at age 15, she led a Red Guard brigade that tortured Chinese citizens branded counterrevolutionaries. She beat innocent people to death and had others exiled; her squad raided homes and murdered people. Now a professor of engineering in British Columbia, Zhai expresses remorse and guilt rather perfunctorily, and her cool confession is tinged with rationalizations. She blames the flourishing of her "evil, barbaric side" on her blind faith in Chairman Mao. Her fervor gave way to bitter disillusionment when she herself was banished to the

countryside in 1969 to do three years of hard labor and be "re-educated" by peasants. This is a grisly account of how political brainwashing can induce converts to commit monstrous acts.

The Optimum Soul Environment is a book of short Life Moments that challenge the difficult concepts of every day life by attempting to simplify the true meaning of life! Though this is a noble and difficult enough concept it is the reader who will determine if it has been attained. What are the great moments of life called? How do you identify with the momentous ideas? Why do the great truths inspire us? How does the awareness between the conscious and higher conscious occur? Perhaps it's called a "Zen Moment." Several Zen Moments are provided. Any "Life Moment" that occurs to expand our awareness in a larger context within the Universe is a Zen Moment. It is hoped that some will find the concept that "seeing clearly" is an inspirational moment. The titles of the three parts are Drip, Drip, Drip (The Well Placed Drip), Pick Me! Pick Me! and The Lights Upon the Horizon. Drip, Drip, Drip is about the simple event of a drip. It asks the reader to acknowledge that if there is meaning in the universe, that the smallest drip has purpose! If the smallest drip has meaning, think how important and meaningful every moment of your life becomes. This part prepares the reader for Pick Me! Pick Me! This is about kickball at a time of youthful exuberance, when the real purpose of that period of a kid's life was to play! The reader is then exposed to the meaning of "light" in the last story. The Lights Upon the Horizon is about what makes living a special event. It is about creating a philosophy of life as a way of living. It is the hoped that the three short Life Moments provided herein will be enlightening. Readers may find them creative, historical and maybe even humorous, but hopefully inspirational. A major part of writing these stories was in the pleasure, moment by moment.

User Manual for the Unbranded MP4 Player with AMV Video Mixed in Key In the years after World War I, the defeated and much-reduced German Army developed new clothing and personal equipment that drew upon the lessons learned in the trenches. In place of the wide variety of uniforms and insignia that had been worn by the Imperial German Army, a standardized

approach was followed, culminating in the uniform items introduced in the 1930s as the Nazi Party came to shape every aspect of German national life. The outbreak of war in 1939 prompted further adaptations and simplifications of uniforms and insignia, while the increasing use of camouflaged items and the accelerated pace of weapons development led to the appearance of new clothing and personal equipment. Medals and awards increased in number as the war went on, with grades being added for existing awards and new decorations introduced to reflect battlefield feats. Specialists such as mountain troops, tank crews and combat engineers were issued distinctive uniform items and kit, while the ever-expanding variety of fronts on which the German Army fought – from the North African desert to the Russian steppe – prompted the rapid development of clothing and equipment for different climates and conditions. In addition, severe shortages of raw materials and the demands of clothing and equipping an army that numbered in the millions forced the simplification of many items and the increasing use of substitute materials in their manufacture. In this fully illustrated book noted authority Dr Stephen Bull examines the German Army's wide range of uniforms, personal equipment, weapons, medals and awards, and offers a comprehensive guide to the transformation that the German Army soldier underwent in the period from September 1939 to May 1945.

JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. "The son of the Wolf" (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, "The Call of the Wild" (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including "The Sea-Wolf" (1904), "White Fang" (1906), "South Sea Tales" (1911), and "Jerry of the South Seas" (1917). One of London's most interesting novels is the semi-autobiographical "Martin Eden" (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

An “engrossing” history of the restaurant atop the World Trade Center “that ruled the New York City skyline from April 1976 until September 11, 2001” (Booklist, starred review). In the 1970s, New York City was plagued by crime, filth, and an ineffective government. The city was falling apart, and even the newly constructed World Trade Center threatened to be a fiasco. But in April 1976, a quarter-mile up on the 107th floor of the North Tower, a new restaurant called Windows on the World opened its doors—a glittering sign that New York wasn’t done just yet. In *The Most Spectacular Restaurant in the World*, journalist Tom Roston tells the complete history of this incredible restaurant, from its stunning \$14-million opening to 9/11 and its tragic end. There are stories of the people behind it, such as Joe Baum, the celebrated restaurateur, who was said to be the only man who could outspend an unlimited budget; the well-tipped waiters; and the cavalcade of famous guests as well as everyday people celebrating the key moments in their lives. Roston also charts the changes in American food, from baroque and theatrical to locally sourced and organic. Built on nearly 150 original interviews, *The Most Spectacular Restaurant in the World* is the story of New York City’s restaurant culture and the quintessential American drive to succeed. “Roston also digs deeply into the history of New York restaurants, and how Windows on the World was shaped by the politics and social conditions of its era.” —The New York Times “The city’s premier celebration venue, deeply woven into its social, culinary and business fabrics, deserved a proper history. Roston delivers it with power, detail, humor and heartbreak to spare.” —New York Post “A rich, complex account.” —Kirkus Reviews (starred review)
