MAN OF THE MONTH MR. OCTOBER

Friends, Enemies, and Strangers Harry N. Abrams

Over the years, Marion has watched her life drain away. Children and husband gone, she ekes out her life in a country utterly transformed. But it's the only home she has. As the new South Africa prepares for the World Cup finals, old divisions and suspicions seem as deep as ever, and the intruder she has been expecting, dreading and needing, arrives. Will true reconciliation turn darkness into hope? Solomon and Marion is a brand new play from an award winning South African writer, and it recently won the Fleur Du Cap Award for Best New South African Play. Foot is Artistic Director of the Baxter Theatre Centre and has won a bevy of South African theatre accolades. Foot has put most of her energy into helping other playwrights and theatre-makers realise their work, and she has nurtured several dozen new South African plays to their first staging. This includes producing the international hit *Mies Julie* written and directed by Yael Farber. Her own hard-hitting plays tackle social issues and have laid bare the brutality and sickening frequency of child rape in South Africa; *Tshepang* (2002) was based on a real event, the alleged gang rape of a nine-month-old baby by six men in a remote, impoverished community. Foot used refined, ironic humour to sketch a portrait of the community, then turned everyday objects into

symbols with horrific poetic effect. *Karoo Moose* (2007) returned to the subject of child rape and a rural town — a shattered, forsaken community where ‘there are no fathers’. A 15-year-old girl is sold for sex to pay off the gambling debts of her jobless and spiritually crushed father, ‘an opportunist with no opportunities’. And in *Solomon and Marion*, Foot explores the cruelty of the meaningless murders which betray her country. *Hear and Now*, *Karoo Moose* and *Tshepang* are also published by Oberon Books. Winner of the Fleur Du Cap Award for Best New South African Play

The Wonderful Wizard of Oz has been enchanting audiences since it was first published in 1900. While many fans may know the work only by its movie counterpart, the world L. Frank Baum built within the books is much more elaborate. Since the more recent publication of Gregory Maguire's *Wicked: The Life and Times of the Wicked Witch of the West* and the Broadway play of the same name, fans have had a rekindled interest in Baum's original works from which the retellings draw heavily. Anyone interested in fantasy, magic, and silliness is sure to love this American classic. L. Frank Baum (1856-1919) is one of the most recognized and beloved children's authors, though he is often recognized for only one of his many stories. The Wonderful Wizard of Oz is easily his most popular work, though Baum actually wrote 13 sequels in Oz. His writings consist of practically every genre: Baum wrote 55 novels in total, 82 short stories, more than 200 poems, as well as scripts, and other miscellaneous writings. Interestingly, many of his non-Oz works were published under pseudonyms. Baum made many attempts to bring his work to stage and screen, but the most successful productions were not made until after his death.

For all the discussion in the media about creationism and 'Intelligent Design', virtually nothing has been said about the evidence in question - the evidence for evolution by natural selection. Yet, as this succinct and important book shows, that evidence is vast, varied, and magnificent, and drawn from many disparate fields of science. The very latest research is uncovering a stream of evidence revealing evolution in action - from the actual observation of a species splitting into two, to new fossil discoveries, to the deciphering of the evidence stored in our genome. *Why Evolution is True* weaves together the many threads of modern work in genetics, palaeontology, geology, molecular biology, anatomy, and development to demonstrate the 'indelible stamp' of the processes first proposed by Darwin. It is a crisp, lucid, and accessible statement that will leave no one with an open mind in any doubt about the truth of evolution.

Every album and every song ever released by the Beatles?from "Please Please Me" (U.S. 1963) to "The Long and Winding Road" (U.S. 1970)?is dissected, discussed, and analyzed by two music historians in this lively and fully illustrated work. *All the Songs* delves deep into the history and origins of the Beatles and their music. This first-of-its-kind book draws upon decades of research, as music

historians Margotin and Guesdon recount the circumstances that led to the composition of every song, the recording process, and the instruments used. Here, we learn that one of John Lennon's favorite guitars was a 1958 Rickenbacker 325 Capri, which he bought for £100 in 1960 in Hamburg, Germany. We also learn that "Love Me Do," recorded in Abbey Road Studios in September 1962, took 18 takes to get right, even though it was one of the first songs John and Paul ever wrote together. And the authors reveal that when the Beatles performed "I Want to Hold Your Hand" on The Ed Sullivan Show in 1964, John's microphone wasn't turned on, so viewers heard only Paul singing. *All the Songs* is the must-have Beatles book for the any true Beatles fan.
