## Docs

A Windows 10 unattended installation can help IT immensely. One of the key steps along the way is creating an answer file, which includes understanding the Windows Setup workflow.

Using Unattended Answer Files with WDS - Windows 7 Tutorial  
Caching Answer Files to the Computer. If you install Windows by using an answer file, that answer file is cached to the system. When later configuration passes run, the computer applies settings in that answer file to the system. Because this answer file is cached, when you run the Sysprep command, the system applies settings in the cached

answer file.
